PERMANENT BRIEF

This man prepared a very good analysis of the several world intelligence plans. He showed excellent analytical ability. Keep an eye on him.

H.

At the conclusion of his training period on 7/28/34 Mr. Keith reported he would make a good field Agent and would properly develop with a minimum of supervision.

On 7/29/34 he was assigned to Cincinnati. The 30-day report submitted on him reflected he was a small-town type of individual possessed of a rather insignificant, colorless personality and rather careless as to his personal appearance, did not have a very quick grasp and understanding of instructions, had shown only a limited grasp of situations to be developed and a limited amount of native ability and initiative in running out the work assigned him when handling leads independently, was only fairly proficient in dictation of reports and in the use of firearms, and there were no possibilities of his developing into other than a very ordinary average Agent. Upon the completion of 60 days of service, it was stated he did not necessarily impress others in contact due to his rather insignificant personal appearance, his development had been very moderate, he was not a quick thinker, his reports from time to time had required revision and correction, and it was felt he would never develop into other than an ordinary Agent.

On 3/31/35 SAC Connelley said he had developed satisfactorily in handling the various routine assignments of the Bureau, was endeavoring at all times to do the best that was possible in connection with any investigation given him, and it was believed he would develop into an average Agent. Mr. Lester interviewed him during In-Service Training in Oct., 1935, and said he had a negative personality, was rather slow mentally, and could be classed about average in general investigative ability. On 9/30/35 Agent Harris said he had shown very satisfactory development during the prior six months, had handled some of the more difficult assignments in a commendable manner, and was believed capable of handling practically all types of work at that time.

He was censured by Bureau letter dated 12/20/35 for permitting a colored NMVTA fugitive to escape. As a result of his carelessness he was also suspended for a period of seven days and a pending promotion to CAF-9 was cancelled. On 3/31/36 SA Harris advised he was developing into a better than average Agent. His promotion was recommended and effective 7/1/36 he was reallocated to CAF-9, \$3200 per annum.

On 9/6/36 he was transferred to Birmingham and on 3/4/37 he was designated Resident Agent at Aberdeen, Mississippi. The reports on his services in the Birmingham territory indicate his investigations were conducted in a prompt and logical manner, he required very little supervision, his work had been of very good caliber, and it was believed he possessed administrative and executive possibilities and should be kept in mind for functioning in an administrative capacity.

On 5/1/37 he was transferred to Memphis and designated Resident Agent at Aberdeen, Miss. The Director saw him during his attendance at In-Service Training in July, 1937, and said he made a favorable and substantial appearance and had definite possibilities. Mr. Clegg made the observation he was not outstanding in any respect but appeared to be a good reliable Agent. On 5/2/38 Mr. J. E. Clegg rated him as GOOD and said he was capable of handling any type of Bureau case, had the knack of utilizing his time to the best advantage, handled routine matters on his own initiative, was particularly good at details, conducted thorough investigations, produced a good volume, required very little supervision, had some administrative ability and was ready for a supervisory position in Washington. His dictation was noted to be decidedly below average.

On 9/5/38 he was transferred to St. Louis. On 5/1/39 SAC Norris rated him as GOOD and said he handled a large volume of work, was well thought of by officers in that territory, had a very good knowledge of the Bureau's work, exercised good judgment, was aggressive and industrious, had initiative, took the lead in all the cases assigned him when associated with law enforcement officials, dictated promptly and concisely, and enjoyed the good will of those he contacted.

On 5/1/40 SAC Norris reported along the lines set out in the foregoing paragraph and pointed out that occasionally he assumed an imperious attitude which was probably due to the importance of many assignments given him.

On 7/2/40 he was transferred to the Washington Field Office. On 9/17/40 SAC Hottel reported on his performance in that office and said his work had been very satisfactory, he had handled the few administrative duties delegated him in a very satisfactory fashion, and it was believed he possessed supervisory and some administrative ability. Effective 4/16/41 he was reallocated to CAF-12, \$4600 per annum.

During his attendance at In-Service Training in June, 1941, Mr. Tamm interviewed him and commented he had developed materially in the previous year or so and he was in a better than average category at that time. It was believed he possessed definite possibilities along administrative and executive lines and it was recommended that he be considered for assignment at the SOG. Relative to his ability as a speaker, it was recommended that he be used sparingly inasmuch as he had somewhat of a "fog horn" voice.

As a result of his loss of a Bureau serial in an applicant case, he was censured by letter dated 7/28/41 and advised he was being demoted in grade and salary to CAF-11, \$4400 per annum. The serial was returned by the Social Security Board.

On 7/25/41 he was transferred to the SOG and assigned to the SIS Section of the Security Division. SAC McKee in his transfer report dated 8/2/41 advised he considered him a seasoned Agent whose services all in all were good or possibly better. Mr. McKee was of the opinion he possessed some supervisory ability. Mr. Foxworth in his 45-day report said he was an above average Agent whose services had been highly satisfactory. Effective 12/1/41 he was restored to grade CAF-12, \$4600 per annum.

On the March, 1942, annual report Mr. Holloman rated him as VERY GOOD, 3, and said he presented a neat personal appearance and had a very nice personality, performed his duties in a highly satisfactory manner, required a minimum amount of supervision, was thoroughly acquainted with his work, and was definitely above average.

On 12/16/42 he was placed on leave without pay for an indefinite duration. On the March, 1943, annual report Mr. Carson rated him as VERY GOOD and advised he was functioning as Chief of the South American Unit of SIS and in that capacity was performing his duties in an outstanding manner. Mr. Carson was of the opinion he possessed considerable executive ability and seemed to be improving and developing in that regard as he acquired experience in that type of work.

On 8/20/43 he was commended for the excellent memorandum he prepared regarding the "Emergency Advisory Committee for Political Defense."

In January, 1944, Mr. Ladd submitted this Agent's name for consideration for Special SAC training. On 3/31/44 Mr. Carson rated him EXCELLENT and said he had been assigned in the SIS Division in a supervisory capacity, he functioned as Chief of the South American Unit of SIS, however, he had for the past six months acted as Assistant Chief of the SIS Division in view of the absence of Agent Heber M. Clegg, he presented a very satisfactory appearance, he had a splendid personality, exercised very good judgment, was a thoroughly seasoned, experienced and competent Agent with regard to any type of investigative matters, he was an excellent Bureau Supervisor in every respect, was far above average in dictating ability, it was believed he possessed outstanding attributes as to initiative, resourcefulness and versatility, and it was believed he had both administrative and executive ability and to be distinctly above average with regard to future promise for development and progress along those lines.

In May, 1944, he attended the Inspectors' Training School. On 6/25/44 he was awarded his Ten Year Service Key. On 7/1/44 he was promoted to \$4800 per annum in Grade CAF-12 under the provisions of the Uniform Promotion Act.

Mr. Rogers interviewed this Agent during In-Service Training in September-October, 1944, and said he made a very good appearance, had a very good personality, was above average in intelligence, he was an excellent Agent, had considerable administrative and supervisory ability and was very much interested in his work.

Mr. Hoover said, "This man prepared a very good analysis of the several world intelligence plans. He showed excellent analytical ability. Keep an eye on him."

On 3/31/45 Mr. Carson rated him EXCELLENT and said he was Assistant Chief of the SIS Division, he was a thoroughly experienced, capable, competent, loyal Bureau Agent and representative, he presented a splendid appearance, he had an excellent personality and handled himself extremely well in interviews and contacts with outside officials, individuals and in connection with conferences, he was completely dependable and very conscientious in the handling of his work, he had displayed outstanding ability in analyzing and organizing involved investigative projects, he had unusual mental grasp and quickness of perception, he exercised tact, diplomacy, was forceful and aggressive, without being objectionably so, he had both administrative and executive ability and was believed to be thoroughly qualified with regard to any type of Bureau assignment.

Mr. J. S. Rogers interviewed him during Special Criminal Investigative Squad Training in April 1945 and said he was an old experienced Agent, he made a very good appearance, he expressed himself very well and appeared to be a loyal, hard working Agent, he was an excellent investigator and was qualified to function on a Major Case Squad.

During an inspection of the Security Division, SIS, during April and May 1945 Inspector Egan said he presented a good appearance, appeared to know his work, seemed interested and intelligent, and he was considered above average. As a result of an increase in basic salaries effective 7/1/45 his salary in Grade CAF-12 was increased to \$5390 per annum and on 7/16/45 he was reallocated to Grade CAF-13 \$6230 per annum.

On 3/31/46 Inspector Carson rated him EXCELLENT and said he had served as Assistant Chief of the SIS Division and he was in every respect an excellent Agent and could be considered outstanding with regard to administrative and executive ability. He created a favorable impression upon those with whom he came in contact, he was entirely satisfactory in maintaining proper relations with government officials with whom he came in contact, he had a very logical mind, was distinctly above average as to initiative and resourcefulness as well as maturity and soundness of judgment. He was thoroughly experienced in various phases of the Bureau's work, he was completely and wholeheartedly loyal to the Bureau, he was extremely conscientious and devoted in all phases of his work. He was industrious and enthusiastic as well as capable. He handled his dictation in an excellent fashion and it was believed he had excellent potentialities for the future.

During an inspection of the SIS Section in June 1946 Inspector Gurnea said he presented an average appearance, although somewhat colorless, he was extremely sincere and conscientious. He definitely had supervisory ability and was capable of guiding others with confidence, his paper work was good and he exerted good judgment, involved matters did not confuse him. It was felt he could better serve the Bureau in a responsible position at the SOG rather than in the field, and in the event SIS was dissolved he should be reassigned to a similar position.

here in Washington.

On 11/7/46 he was removed from the SIS rolls and transferred to the Atomic Energy Section.

On 11/7/46 Inspector Carson rated him EXCELLENT and said he had a very keen, analytical mind, was outstandingly capable and had handled his duties in a very competent and commendable fashion. He was extremely alert in looking out for the Bureau's best interests, he prepared memoranda and other correspondence in excellent fashion, he was extremely industrious and was believed to be completely loyal to the Bureau and its work. He had a splendid personality and created an extremely favorable impression upon those with whom he came in contact. He had administrative and executive ability and it was believed he was definitely outstanding. On 1/26/47 his salary in Grade CAF-13 was increased to \$7341.60 per annum under the provision of the Uniform Promotion Act.

On 3/31/47 Assistant Director Ladd rated him EXCELLENT and said he was possessed of administrative and considerable native ability, he had an analytical mind and it was believed he was capable of additional administrative ability, and therefore was named Chief of the Atomic Energy Section. His work in this section had been good, he was conscientious, and loyal.

Recently this Bureau's position with the Atomic Energy Commission was weakened considerably when this Bureau was put upon the defensive rather than the offensive in the new security regulations at Oak Ridge, Tennessee. From a resume of this matter it was ascertained that SAC King of the Knoxville Office telephonically called Agent Keay from Knoxville and advised that difficulties had developed at Oak Ridge and that he (SAC King) had sent a detailed letter by air mail to the Bureau. Agent Keay did not ask for details over the phone and stated the reason for this action was the knowledge that a detailed letter was on the way and he did not wish to prolong the telephone conversation. (The Director commented, "we should practice more practical economy") Agent Keay further advised that he immediately took steps to secure the letter expeditiously when it arrived at 3:26 P. M. on Saturday, 4/26/47, examined it, prepared the memorandum giving full information and attached the necessary letters, and advised Mr. Ladd of the action he was taking on Monday morning, 4/28/47. Agent Keay stated that King considered this matter a purely local situation since it was not stated that Washington would have to be contacted. (The Director commented, "just because King acted dumb was no reason for others doing the same".) This memorandum could not be sent through inasmuch as a letter was received from Mr. Lilienthal concerning this matter and necessary changes had to be made in accordance with the content of Mr. Lilienthal's memorandum and also corrections had to be made after the Bureau memorandum had been typed. (The Director commented, "strange Lilienthal's office was able to get a letter delivered to me on Monday afternoon and we couldn't get rolling until sometime Tuesday. The "old gray mare ain't what it used to be".) Agent Keay advised that the only reason he held this letter (from SAC King) was to take the necessary action and that in the future he would immediately furnish such information immediately to the Director and that he would obtain details telephonically even though a detailed letter was on the way. (The Director commented, "Calls from SACs and to SACs should be handled by Assistant Directors or Assistant to the Director".) The Director further commented, "I assume Mr. Keay either considered matters of little consequence or it was too near closing time (3:26 P.M.) to do anything about it until Monday. Observe Lilienthal's men at Oak Ridge are more on their toes than Knoxville FBI or our Security Division here. He got a letter of protest to me on Monday while our Security Division was cogitating and creaking along with a lot of lost motion".

In June, 1947, the Executive's Conference approved of his amended Manual provision and amended Handbook provision incorporating instructions with reference to the proper statement for an Agent to make in conducting the investigation of an applicant or an employee in connection with the Atomic Energy Act.

During an inspection of the Security Division in February, 1948, Inspector Harbo advised this agent had been in charge of the AE Section since the inception of that program. He was an experienced, mature agent, was somewhat quiet in manner, his personality was lacking in color but he appeared to be liked and respected by the personnel. Generally he was well-acquainted with the details of the work in his Section, was maintaining satisfactory liaison with the AE Commission, his attitude toward the inspection indicated that he was desirous of obtaining as much constructive assistance as possible, he generally appeared well qualified for his position and should have no difficulty in carrying forward the AE Program to a satisfactory conclusion.

On 2/16/48, in accordance with Mr. E. A. Tamm's recommendation, all liaison matters and name checks were transferred to the AE Section under this agent's supervision.

On his 1948 Annual Efficiency Report Mr. Ladd rated him EXCELLENT and said he had been Section Chief in charge of the Atomic Energy Unit of the Security Division since its inception, and, as such had planned and anticipated the growth and changes necessary in connection with the handling of a large volume of work in a very satisfactory manner. He was a good administrator and executive, was well liked by the employees under him, was possessed of good judgment, initiative and obtained the maximum work from his employees.

On 5-3-48 Mr. Glavin considered him for reallocation to Grade CAF-14. However, it was recommended that he be reconsidered for same, pending the result of the recheck inspection of the Atomic Energy Section. The results of the recheck inspection during May, 1948, reflected that the Atomic Energy Section was handling a tremendous volume of work and was operating very efficiently. Further, it was ascertained that Mr. Keay had corrected the delinquencies which existed at the time of the original inspection. On 7/11/48 he was re-allocated to Grade CAF-14, \$8179.50 per annum and was designated an Inspector. As the result of an increase in basic salaries, effective 7/11/48, his salary in CAF-14 was increased to \$8509.50 per annum.

By memorandum dated 12/14/48 Mr. Fletcher submitted Inspector Keay's name as one to be considered on a long range basis for development as a Special Agent in Charge.

On 2/10/49 Mr. Ladd rated him EXCELLENT and said he had supervised a very large volume of work, he had demonstrated the ability to get things done, he had streamlined procedures and had very effectively accomplished the obligations of the Bureau, and had accomplished savings in man power. The Liaison Section had been constantly improved, the relationship with other Federal agencies, particularly the State Department, White House and intelligence services of the Armed Forces, were at a very high level, and the work of the section was maintained on a current basis. The over-all administration of the unit under the direction of Inspector Keay was very effective.

On 3/31/49 Mr. Ladd rated him EXCELLENT and said he was intelligent with a keen analytical approach, he got things done with a minimum of waste motion, he knew what was going on and was constantly endeavoring to streamline and improve the quality and quantity of the work in his unit. He afforded close supervision and gave good direction to his employees, he handled a great deal of paper work being particularly adept in preparing concise yet convincing memoranda, and he had done outstanding work in building up the Liaison Section. He had been especially alert in following the revision of the Delimitations Agreement and in handling the preliminary drafts and negotiations in connection with the Interdepartmental Committee on Internal Security. He was a loyal employee who handled his work in a splendid fashion.

During an Inspection of the Security Division in June, 1949, Inspector Gurnea said he conducted a good interview, expressed himself well, and always exhibited interest and enthusiasm. During the Inspection it was found the Atomic Energy-Liaison Section under his supervision was well organized and the administration was satisfactory. Inspector Gurnea was of the opinion Keay's administrative ability, including his ability to organize the work of others, was above average. His judgment concerning administrative devices was sound, and it was believed this employee was particularly well-qualified to organize and supervise units at the Seat of Government.

He attended an In-Service Training Course at the Seat of Government from 10-17-49 to 10-28-49.

As the result of a basic salary increase effective 10-30-49, his salary was increased to \$8800 per annum in Grade GS-14.

By letter dated 12-12-49 he was advised that his action in contacting a subordinate employee of the Washington Field Office instead of the Special Agent in Charge or, in his absence, the Assistant Special Agent in Charge, in connection with an investigation of [REDACTED] was in direct violation of repeated Bureau instructions that telephonic communications with field offices were to be made only to the Special Agent in Charge or during his absence the Assistant Special Agent in Charge, and it was felt that an employee of his experience and responsibilities could be relied upon to abide by Bureau instructions.

On 1-8-50 he received a Uniform Promotion to \$9000 per annum in Grade GS-14.

On 3-31-50 Inspector Belmont rated him VERY GOOD and said he was Chief of the Correlation-Liaison Section, and in addition, he served as a representative of the Bureau on various important committees in the fields of intelligence and internal security. He was mature, experienced, and well qualified in the various work of the Bureau. He had a great deal of initiative and facility for getting his work done, he afforded good supervision and effective direction to the personnel under him, he was a hard worker, and enthusiastic employee, and was whole-heartedly loyal and alert to protect the Bureau's interests. He at times had occupied the desk of the Number One Man in the Security Division, and he had performed his duties in connection with this assignment in a commendable manner. Were it not for the letter of censure directed to him on 12-12-49, he would be entitled to the rating of Excellent.

During an Inspection of the Security Division in November, 1950, Inspector Harbo said he was a mature, experienced Agent and had had extensive experience as a Section Chief at the Seat of Government. The Correlation-Liaison Section was found to be well organized and administered and to be operating effectively, and he was considered above average.

By letter dated 12-18-50 the Director expressed his appreciation to Mr. Keay and the personnel of the Correlation-Liaison Section for the splendid manner in which they cooperated and assisted in the preparation of the

recent brief on the Nationalist Party of Puerto Rico.

By letter dated 12-28-50 he was commended for the most gracious manner in which he assisted in entertaining [redacted] the Cuban Army. [redacted] and his aide, [redacted] during their recent visit to the Bureau.

His daily average overtime for the month of October, 1950 was 1 hour 53 minutes; November, 3 hours 11 minutes and December 2 hours 7 minutes. The office average for October was 1 hour 2 minutes; November, 2 hours 15 minutes; December, 2 hours.

On his 1951 Annual Performance Rating Mr. Belmont rated him SATISFACTORY and said he was thoroughly experienced and had an outstanding knowledge of the Bureau's policies and procedures, particularly as they relate to internal security and intelligence matters. He was a very good administrator, he worked hard and saw to it that things got done, had the ability to analyze situations and exercised good judgment, and as Chief of the Correlation-Liaison Section he set a good example by working hard and voluntarily putting in long hours. He could handle assignments of any nature, including the most complex, he represented the Bureau on various important committees in the fields of intelligence and internal security, he also served as alternate, and had actually represented the Bureau in this capacity on committees of the highest levels in those fields. He had been particularly effective in the organization, training and supervision of the liaison activities in his section, and largely as the result of his supervision, the liaison had been outstanding. He was rated in the upper limits of Satisfactory.

The Director saw him on 4-11-51 and said he outlined to him (the Director) generally the results of his inspection of the offices of the Legal Attaches in Cuba, Mexico and Brazil. The Director suggested to him that in view of his assignment to the Security Conference which was to be held the next week between the British and Americans concerning French security, that he believed it would be well for him (Keay) to accompany this group abroad to their meetings in London and Paris and that while abroad the Director would like to have him check over the offices of the Legal Attaches at London, Paris and Madrid. The Director also told Mr. Keay that upon his return to the United States, when it was convenient to do so, he would like to have Keay make the same check of the Legal Attache Office at Ottawa, Canada.

On 4-26-51 Mr. Ladd submitted his name for consideration on a long-range basis for development as an administrator and executive in the Bureau.

On 6-22-51 the Director saw Mr. Keay and said he had recently returned from a trip to Europe in connection with a commission dealing with the security problems and intelligence of the United States, Great Britain and France. The Director pointed out that Mr. Keay, at the time he made that trip, also took occasion to inspect the Legal Attaches' offices in Europe.

On 7-8-51 he received a Uniform Promotion to \$9200 per annum, and on the same date he received a basic increase to \$10,000 per annum in GS-14.

By letter dated 7/28/51 he was CENSURED because on an occasion a book of unused Government Transportation Requests which had been issued to him for his official use was lost and no adequate explanation for such loss had been furnished. This loss occurred while he was temporarily in the Anchorage Division.

By letter dated 11/8/51 the Director expressed appreciation for the exemplary manner in which he assisted in the preparation of the Central Intelligence Agency brief.

By letter dated 12/21/51 he was COMMENDED for the splendid response and enthusiasm displayed by him and employees under his supervision in remaining throughout the entire evening of December 13th and the morning of December 14th in order to complete the preparation of memoranda on a very special matter.

On 1/31/52 Mr. Belmont submitted his name for consideration on a long-range basis for development.

On 3/31/52 Mr. Belmont rated him SATISFACTORY and said he was a mature, serious and sincere employee who made a good personal appearance. He was extremely loyal to the Bureau. He had a great amount of drive and initiative which enabled him personally to get things done. This employee gave guidance and counsel to Bureau liaison representatives in their dealings with various top level Governmental officials. He represented the Bureau on various important committees in the fields of intelligence and internal security. He served, too, as an alternate and from time to time represented the Bureau in this capacity on committees of the highest levels in these fields. He had done very well on these assignments. He was a very hard worker.

His overtime for March, 1952 was 2 hours 15 minutes.

On 5/25/52 he received a meritorious increase to \$10,200 per annum in view of outstanding services performed by him as a Supervisor at the Seat of Government. As Chief of the Correlation-Liaison Unit of the Domestic Intelligence Division he had shown an all-around ability well above the average. He had a great amount of drive and initiative which enabled him to get things done and these attributes were reflected in his administration of his Unit.

On 7/20/52 he was reallocated to Grade GS-15, \$10,800 per annum.

During the Inspection of the Domestic Intelligence Division in August, 1952, Inspector T. E. Naughten said he was well suited by capacity, temperament and ability for his present post.

His overtime for August, 1952 was 2 hours 10 minutes.

On 3-31-53 Assistant Director Belmont rated him SATISFACTORY and said as Chief of the Liaison Section, he was responsible for initiating, maintaining and supervising contacts with officials in other agencies and departments of the Government. He also was responsible for the supervision of contacts with certain foreign governments, including specifically the Bureau's Legal Attaches and liaison representatives out of the country. Because of his experience, maturity and general all-round ability, he had been able to give employees under his supervision leadership, sound advice, and counsel. He had a great deal of initiative and tenacity. He was incisive and especially adept at analyzing complex problems. He dictated well and his paper work was clear, coherent and succinct.

By letter dated 4-16-53 he was CENSURED for the series of very embarrassing mistakes made by employees assigned to his section and under his general supervision in connection with the transmittal of information from the files of this Bureau to the Federal Security Agency. Specifically, it had been found that memoranda prepared early in February, 1953, transmitting investigative reports to the Federal Security Agency in connection with [redacted] set out incorrectly the number of attached reports. A similar error might also have been made in connection with the case of [redacted]. In addition, a memorandum dated 2-9-53, and pertaining to [redacted] stated that an attached report was dated 1-3-49, when the report was actually dated 7-22-48. The employees who initially prepared these communications were most seriously at fault as was the Special Agent Supervisor who reviewed them and approved them for Keay; and these derelictions reflected adversely upon his over-all supervision of the section. Had he seen to it that the employees in question were properly trained, afforded the necessary supervision, and adequately impressed with the necessity of performing their duties with complete accuracy at all times, these embarrassing mistakes would not have occurred.

His daily average overtime for April, 1953 was 2 hours 14 minutes.

During an Inspection of the Domestic Intelligence Division in June, 1953, Inspector Stein said he had a very good knowledge of the varied functions of his section. Although rather quiet, he had a pleasing personality and had functioned very well as liaison man on a high level. He had a very good knowledge of the workings of his section and appeared to be an original thinker. He was considered competent in his post.

On 1-17-54 he received a uniform promotion to \$11,050 per annum, in GS-15.

In a letter to the Director dated 1-11-54, Major General A. C. Smith, USA, Chief, Military History, expressed kind words regarding the cheerful assistance Mr. Keay afforded [redacted] of Smith's Office, while [redacted] was conducting research covering the historical development of the Military Intelligence Division of the General Staff.

By letter dated 2-26-54 he was CENSURED for the apparent lack of proper

organization in the Liaison Section to insure handling of matters of importance with sufficient promptness. Specifically, as a result of the recently made inquiry into the reasons for the delay in transmitting to the White House a requested memorandum in the case entitled "Jay Lovestone, with aliases Espionage" it was determined that there was an unwarranted delay on the part of the liaison agent who received the incoming call before he transmitted the request to the Espionage Section where it would be handled and in addition a memorandum prepared covering this matter did not reach the office of the Assistant Director until twenty-four hours after it had left the liaison agent's desk.

By letter dated 3-3-54 Theodore C. Streibert, Director, United States Information Agency, commented on the excellent service given to that agency by Mr. Keay.

On 3-31-54 Assistant Director Belmont rated him SATISFACTORY and said he had served throughout this rating period as Chief of the Liaison Section of the Domestic Intelligence Division. He was responsible for the initiation, maintenance and supervision of contacts with officials of other Government agencies. This Section also had the responsibility for the supervision of contacts with certain foreign governments and the activities of the Bureau's Legal Attaches and liaison representatives out of the country. He had had many years of experience in his present assignment and he had indicated having qualities of leadership, maturity and general ability. His judgment was sound and he kept himself well informed as to the work in his Section. He evidenced much enthusiasm for his work and had an abundance of initiative. He handled problems well and quickly got to the heart of a situation. He presented a good appearance, and made a favorable impression upon those with whom he came in contact. He was considered entirely loyal to the Bureau and was a sincere and conscientious person. He also represented the Bureau on various committees in the internal security field. These assignments involved conferences and discussions with other Government officials on a high level and he had always represented the Bureau well in this capacity.

In a letter dated 4-26-54 the Director thanked him and Mrs. Keay for remembering him (Director) with an invitation to attend the celebration of their Twenty-fifth Wedding Anniversary on May 2, 1954. The Director joined their many friends in extending heartiest personal congratulations and regretted that a prior commitment precluded planning to be with them on that noteworthy occasion.

During an Inspection of the Domestic Intelligence Division in April, 1954 Inspector Van Pelt said he was a very determined individual, with mature outlook and broad knowledge and experience in security work. It was noted that he was promoted during the inspection to guide the activities of both the Liaison and Internal Security Sections. He appeared fully qualified for his duties. He advised that he had no personal problems and was available.

By memorandum dated 5-13-54 Mr. Keay advised that he would preside at the annual reunion dinner of the Washington University Alumni Local Chapter, Ambassador Hotel, Thursday, May 20, 1954.

By memorandum dated 5-19-54 Mr. Keay made reference to his memorandum dated 5-17-54, regarding Organizational Arrangements for Handling Internal Security Matters, which analyzed the report which was prepared in the Department of Justice for the Attorney General. In discussing the recommendations in the Justice report it was stated, "Strong Executive Secretary is needed for each committee. (It was recognized ICIS already has it.)" The Director inquired, "Hasn't IIC also got a strong Secretary?" Mr. Keay explained that this was a typographical error and should have read, "(It was recognized IIC already has it.)" Mr. Keay regretted that he missed this error. The Director noted "I don't have the time to dig thru to find what is right or what is wrong. H."

By letter dated 5-24-54 he was designated Inspector in Charge of the Internal Security - Liaison Branch of the Domestic Intelligence Division.

On 5-27-54 the Director saw Inspector Keay. Mr. Keay wished to express his appreciation for his promotion and inquired as to whether the Director had any suggestions to make. The Director outlined to Mr. Keay the imperative need for not only himself but all of his subordinate supervisors having a deep sense of responsibility for the proper performance of work. The Director stated that he had no doubt about the good intentions of our personnel nor about their industry but he did think that there were times when the staff did not fully sense the sensitive position the Bureau was in at this time and the imperative need for exercising good judgment, thoroughness, and promptness in the handling of all phases of the Bureau's work.

By memorandum dated 6-1-54 Mr. Belmont advised that Inspector Keay reported to the Front Office, Domestic Intelligence Division, on 6-1-54, to assume his new duties as Inspector in charge of the Internal Security Liaison Branch. At the conclusion of sixty days, a report concerning his progress would be submitted.

On 6-25-54 he received a Twenty-Year Service Award Key.

On 8-1-54 Mr. Belmont rated him SATISFACTORY and said this report was being submitted in view of the fact that Inspector Keay had occupied the position of Inspector in Charge of the Internal Security-Liaison Branch of the Domestic Intelligence Division, having been so designated on 5-24-54. Mr. Keay had applied himself vigorously to his new position and had shown that he was entirely capable of handling the work. His broad background of experience in the security field had stood him well. He had shown above-average judgment, the ability to make decisions, and had assumed to the fullest extent the responsibility connected with his new duties. His work had been entirely satisfactory. In a separate communication Mr. Belmont recommended that he be reallocated to Grade GS-16.

On 8-15-54 he was reallocated to Grade GS-16, \$12000 per annum.

By letter dated 8-18-54 he expressed his appreciation to the Director for his promotion to Grade GS-16, which became effective on 8-15-54.

By memorandum dated 9-8-54, Mr. Keay stated that unless advised to the contrary by the Bureau, he would represent The Washington University of St. Louis, from which he graduated, at the Marshall-Wythe Ceremonies at the College of William and Mary, Williamsburg, Virginia, on Saturday, 9-25-54.

By letter dated 1-19-55 he was CENSURED for the faulty judgment exercised by him in connection with the matter involving the cablegram request by an inspector of the Panama Secret Police for information concerning Irving Martin Lipstein. After it had been recommended and approved that any information developed in the field regarding Lipstein be referred to the Department of State for transmittal to the Panama Secret Police, he took the position that it was not necessary for the Bureau to acknowledge the inspector's cablegram but rather that acknowledgment was the function of the Department of State. It should have been readily apparent to him that it was necessary for the Bureau to acknowledge the cablegram indicating therein that the matter had been referred to the other Government agency.

By letter dated 1-24-55 he was COMMENDED for the magnificent job accomplished by him and his associates in the handling of a special project on January 18 and 19, 1955. It is noted he assisted in the handling of a special project incidental to the proposal of the Solicitor General as to revealing confidential sources and informants in connection with loyalty cases.

By letter dated 2-23-55 he was CENSURED and PLACED ON PROBATION inasmuch as upon careful consideration of the facts relating to the procedures which were being followed in substituting amended pages of investigative reports previously furnished the Department of Justice and other outside agencies in order to reflect a change in the reliability of former confidential informant Harvey Matusow it had been determined as Inspector in charge of the Internal Security - Liaison Branch of the Domestic Intelligence Division he was responsible for supervision of the situation involving Matusow and he approved certain instructions sent to the field. It was obvious that he did not recognize the undesirable position in which the Bureau was placed as a result of the substituting of corrected pages in reports in the files of another agency in the manner which was being followed.

By letter dated 3-10-55 he was CENSURED for the dilatory handling afforded by the Internal Security Section of the Domestic Intelligence Division to a memorandum and a proposed letter to all Special Agents in Charge based on a letter dated 1-24-55, from the Assistant Commissioner of the Immigration and Naturalization Service. It had been noted that this incoming letter was received in the Internal Security Section on 2-4-55, and was not handled to completion by him and his subordinates until 2-16-55, and because further revisions were necessary the memorandum and proposed letter to all Special Agents in Charge did not clear the Domestic Intelligence Division until 2-18-55. There appeared to be no justification for the delay which occurred in the handling of this matter by personnel under his supervision.

On 3-13-55 he received a basic salary increase to \$12,900 per annum in Grade GS-16.

By letter dated 4-4-55 he was CENSURED for the ineffective operation of personnel of the Internal Security Section of the Domestic Intelligence Division in connection with errors in reports received at the Seat of Government from field divisions. It was evident that supervisors of the Internal Security Section had not been sufficiently aggressive in insisting that field divisions comply with existing Bureau regulations in the submission of amended pages for reports in which errors had been noted. Furthermore, in several instances supervisors had erroneously considered delinquencies as errors of form whereas these delinquencies were of a substantive nature.

By letter dated 4-28-55 he was CENSURED for the ineffective supervision afforded by the Liaison Section of the Domestic Intelligence Division to the Office of the Legal Attache in Mexico and the Mexican Border Coverage Program. It was obvious the Liaison Section had allowed this program to deteriorate and had permitted the Legal Attache's Office to operate to suit itself. There was no excuse for the complete lack of aggressive supervision afforded this important matter by the Domestic Intelligence Division.

By letter dated 5-3-55 he was CENSURED for reviewing and approving a proposed letter to all Special Agents in Charge which had been prepared by an agent under his supervision and related to revised thumbnail sketches on the Liberty Book Club and the Wholesale Book Corporation. He should have observed that the sketch on the Liberty Book Club did not comply with existing instructions inasmuch as it concealed the identity of an individual who furnished data regarding the Liberty Book Club.

On his 1955 Annual Performance Report, Mr. Belmont rated him SATISFACTORY and said he had had extensive experience in varied phases of the Bureau's

operations both in the field and at the Seat of Government. He was particularly experienced in Bureau policy and procedures. His judgment was sound, he was thoroughly loyal to the Bureau, and he had handled many delicate matters with success. He was a sincere, hardworking, conscientious Bureau official. He handled a large volume of work of a highly important nature in his position as Branch Chief of two Sections of that Division. He supervised the activities of a large number of personnel.

On 6-25-55 the Director expressed his personal congratulations and best wishes on Mr. Keay's twenty-first anniversary as a member of the FBI.

By memorandum dated 7-22-55 Mr. Hennrich (acting for Mr. Belmont) recommended that Mr. Keay be considered for removal from probation. However, Mr. Boardman did not concur in this recommendation.

By letter dated 8-11-55 he was CENSURED inasmuch as a thorough analysis had been made of the facts relating to the handling by the Liaison Section during July, 1950, of a communication received from another Government agency in the Loyalty of Government Employees investigation regarding Nancy Anne Haycock. The Bureau had noted that this memorandum which was dated 7-12-50, was returned to the agency which sent it and retained in its files without any record having been made of the memorandum or its contents for FBI records; further, a Liaison Section supervisor discussed the case with a representative of the agency in question at about the pertinent time. From the above it appeared likely that the communication was improperly returned to the originating agency and that this was done either intentionally or inadvertently by a Liaison Section representative. Inasmuch as he was in charge of the Liaison Section during the pertinent period it was his responsibility to have insured that personnel under his supervision carried out their duties in accordance with all the policies, instructions and practices of the Liaison Section. Obviously, he did not properly discharge this responsibility.

By letter dated 8-12-55 he advised the Director of his deep concern and feeling of responsibility for the various incidents which had occurred in connection with our liaison work. He, of course, was well aware of the importance of this operation to the Bureau as he was in direct charge of it over a period of years and it was still indirectly under his supervision as part of the branch which he had in the Domestic Intelligence Division. He could not help but feel that he had let the Director down. He believed, however, that he could do the job as the Director wanted it done. He wanted to assure the Director that he would do his very best in the future to handle any assignment the Director wanted to give him as he had a very definite interest in his work and in his future career in the Bureau. He sincerely hoped that he could

handle his assignments so as not to let the Director down again.

By memorandum dated 8-22-55 he was considered for removal from probation but was passed over to be reconsidered at a later date in view of the administrative action taken against him since he was placed on probation and in view of Mr. Boardman's failure to concur in the recommendation that he be considered for removal from probation.

By letter dated 8-23-55 he was advised that the Bureau had received his letter of 8-12-55. He was advised that the Bureau was concerned with the manner in which he had supervised the activities of the Internal Security Section. This section had not been functioning properly. After giving very careful consideration to the incidents which had occurred and which had been called to his attention, he was being REMOVED as Inspector in Charge of the Internal Security-Liaison Branch and being reassigned to other duties in the Training and Inspection Division. This change would involve his being DEMOTED from \$12,900 per annum in GS-16 to \$12,150 per annum in GS-15, effective 8-28-55.

Memorandum dated 8-25-55 reflected that he reported to the Training and Inspection Division and had been assigned to the Inspection and Planning Section.

His daily average overtime for August, 1955 was 1 hour 17 minutes.

Memorandum dated 9-2-55 reflected that his name had been deleted from the list of employees in the Domestic Intelligence Division who were authorized to declassify, classify, upgrade or downgrade defense information.

His daily average overtime for September, 1955 was 1 hour 17 minutes.

By letter dated 10-11-55 he was CENSURED inasmuch as he lost his FBI badge.

His daily average overtime for October, 1955 was 4 hours 31 minutes.

On 10-31-55 Mr. Mason rated him SATISFACTORY and added that he had assisted Inspector B. C. Brown in the Albany recheck and the New York recheck. Inspector Brown stated that he was thoroughly grounded in Bureau policy; had shown a great deal of tenacity and determination; had displayed an inquisitive, searching approach; had evidenced thorough interest in all phases of inspection procedures and had shown no difficulty in understanding and applying them; evaluated tightly without considering personalities; had provided sound counsel and instruction to the Aides. It was felt that he had profited from his participation with Inspector Brown in the two mentioned rechecks and that, as soon as he

received further training with an experienced Inspector in the conducting of full field inspections, he should be able to conduct inspection duties by himself.

By memorandum dated 11-15-55 it was recommended that he be removed from probation; however, Mr. Tolson suggested he be reconsidered on 1-1-56. The Director concurred.

His daily average overtime for November, 1955 was 3 hours 29 minutes.
His daily average overtime for December, 1955 was 3 hours 48 minutes.

His daily average overtime for January, 1956 was 3 hours 31 minutes.

By memorandum dated 2-1-56 Mr. Mason recommended that he be removed from probation. The Director's notation reflected "Yes."

By letter dated 2-3-56 he was REMOVED FROM PROBATION.

On 2-12-56 he received a uniform promotion to \$12,420 per annum in GS-15.

His daily average overtime for February, 1956 was 2 hours 50 minutes.

On 3-31-56 Mr. B. C. Brown rated him SATISFACTORY and said he was well grounded in Bureau policies and his progress as a Field Inspector was considered satisfactory. His attitude had been excellent and he appeared to be enthusiastic about field inspections. He was fully available and interested in administrative advancement. It was believed his long and varied experience in the Bureau would qualify him for a position of greater responsibility and that he could adequately handle such assignment.

His daily average overtime for March, 1956 was 4 hours 36 minutes; April, 5 hours; and May, 2 hours 28 minutes.

During an inspection of the Training and Inspection Division in May, 1956, Inspector Trotter advised he had no problems nor suggestions to offer at the time of interview. He liked inspection work but would not prefer it for all of the time in the future. He preferred an assignment at the Seat of Government where he could organize and perform administrative functions. He felt that inspections were good experience - one that he would not have wanted to have missed. He is 51 years old, married [redacted]

[redacted] if Mr. Keay was still on inspections he felt some adjustment must be made since this would leave his wife at home alone while he was on field inspection trips. He mentioned that he might consider selling his home and move into an apartment. His wife has been employed for sometime with the U. S. Post Office in Northern Virginia.

By letter dated 6-25-56 the Director congratulated him on his Twenty-second Anniversary with the FBI.

His daily average overtime for June, 1956 was 2 hours 32 minutes.

By letter dated 7-27-56 he advised the Director of his wish to retire inasmuch as he was interested in the position of Assistant Security Advisor to the North Atlantic Treaty Organization (NATO) which was vacant. The headquarters will be in Paris and the salary and allowances amount to \$17,500 per year, tax free, as it is paid out of International funds. He had learned through friends that he could have the position on retiring from the Bureau. He felt that it was an opportunity he could not overlook and that he owed the duty of taking it to his family because of financial advantages.

By letter dated 7-27-56 the Director advised Mr. Keay that Miss Gandy had furnished him with the contents of Keay's letter dated 7-27-56. The Director stated he was sorry to learn of Keay's contemplated plans to retire but was happy to receive the news of the fine offer which had been made to Keay. He was advised as Miss Gandy had told him, any decision he might make with respect to retiring and accepting the position in question was, entirely up to him, and it would be perfectly satisfactory with the Director.

On 7-30-56 he advised Mr. Mohr that he desired his retirement to become effective August 31, 1956. By letter dated 7-30-56 he was advised his retirement would be made effective 8-31, with his annuity to become effective 9-1-56. He was advised in order that he would not lose any current accrued annual leave, it would be necessary that he cease active duty at the close of business 8-23-56.

By memorandum dated 7-31-56 Mr. Nichols advised that Bob Cartwright called and stated that Mr. Keay was under consideration for assignment to NATO. Cartwright did not know what was back of the assignment but before letting the matter go any further, he wanted to check with the Bureau to see if it was all right. Mr. Nichols advised Cartwright that the Bureau could take no position in this matter other than to state that Keay's record in the Bureau had been otherwise satisfactory and that his application for retirement was being granted.

His daily average overtime for July, 1956 was 3 hours 19 minutes.

On 8-23-56 Mr. Brown rated him SATISFACTORY and said he performed field inspections and conducted Seat of Government surveys in a highly satisfactory manner. He had demonstrated good judgment in his evaluations of operations in field offices and had maintained an objective and constructive attitude. He had contributed valuable suggestions along both administrative and investigative lines during each inspection; his value as an Inspector had steadily increased. It was considered the Bureau was losing a valuable employee through his retirement.

By memorandum dated 8-24-56 Mr. McGuire advised Inspector Keay stopped by on 8-23-56 and, in the absence of the Director from Washington, made known his request for an autographed photograph of the Director. He also asked that he be placed on the Bureau mailing list to receive items of interest from the Bureau. By letter mailed 9-5-56 he was advised an autographed photograph of the Director was being forwarded under separate cover and arrangements had been made whereby he would regularly receive material distributed by the Bureau, including "The Investigator."

By letter dated 8-30-56 Mr. Keay advised that when he checked in his Bureau property on his recent retirement he did not turn in his master key. He had removed it from his key chain the previous night at home preparatory to turning it in. He had made a meticulous search at home but had been unable to locate the key, and therefore must conclude it was lost. It seemed certain that it was thrown out with the trash and had been destroyed. He expressed apologies and earnest request that he be forgiven a lapse of the desirable care of such property. No reply was made and no further action was taken.

His daily average overtime for August, was 35 minutes. It is noted he worked only 16 days, and this was the month of his retirement.

By memorandum dated 9-4-56 it was advised that on that date Mr. S. Wesley Reynolds, Director, Security Division, National Security Agency, advised that Mr. Keay was being considered by the Security Division of that Agency for employment as a consultant. Reynolds pointed out that he was aware that Mr. Keay was being considered for a position with NATO, and explained National Security Agency would utilize his services until he received a position with NATO. Mr. Reynolds requested that he be furnished a service write-up concerning Mr. Keay due to the fact that he would be utilized as a consultant by National Security Agency. Mr. Keay's service record was furnished by letter dated 9-10-56.

By letter dated 10-2-56 [redacted] Arlington, Virginia, was furnished Mr. Keay's service record in view of Request for Verification of Employment dated 9-24-56. It is noted Mr. Keay had applied for a mortgage loan to be made by this institution.

Memorandum dated 10-5-56 reflected [redacted] of State called and requested a personnel write-up regarding Mr. Keay. This was in connection with a clearance for employment in the NATO Security Bureau. Mr. Keay expected to leave the U. S. about 11-15-56 for Paris. Mr. Keay's service record was furnished on 10-10-56.

By memorandum dated 10-18-56 Mr. Conroy advised Raymond A. Loughton, Assistant Chief, Security Service, Office of Secretary of Defense (OSD), that date requested a service write-up on Mr. Keay. Mr. Loughton stated that OSD was handling the National Agency Checks for NATO in connection with consideration being given Mr. Keay for position of security advisor.

It was noted the service record of Mr. Keay was furnished SA Mario Gregorio, Name Check Section, for delivery to OSD on 10-19-56.

On 10-31-56 Mr. Holloman advised that this former Special Agent called to advise that he was departing 11-1-56 for Paris, France, where he would be until December temporarily in connection with his work with NATO as Executive Secretary of the Special Committee. He would return to the United States in December, 1956. Mr. Keay stated he would like to come down 10-31-56 or 11-1-56, if possible, to pay his respects to the Director, advise the Director of his new duties, and to offer to be of any assistance possible to the Bureau. He stated that if the Director could not see him at this time, he would like to see the Director in December when he returned. In view of the lateness of his request to see the Director, it was recommended Mr. Keay be advised the Director's schedule would not permit him to see Mr. Keay at this time and that Mr. Keay contact this office upon his return in December and if the Director's schedule was such at that time, the Director would see him in December. The Director noted, "I am unable to see him. H." Mr. Keay was so advised.

On 12-27-56 he entered on duty with the Department of State as a Security Officer, in Grade FSR-2, \$12,900 per annum less annuity.

On 1-7-57 Mr. Belmont advised Former Inspector Keay, Security Officer of NATO, was leaving for Paris on his assignment 1-11-57, by boat from New York. This was a two-year assignment which would put Keay in a very strategic position insofar as knowledge of intelligence activities was concerned among the NATO nations. Mr. Keay very much would like to see the Director before he left, merely to pay his respects and express his desire to be of assistance. The Director noted, "I will be unable to see him."

The Director saw him on 3-19-59 and noted that Mr. Keay spoke quite favorably of our Legal Attache's office in Paris and indicated a desire to cooperate fully with the Bureau.

By letter dated 7-27-60 appreciation was expressed to him for his thoughtful letter of 7-19-60, to the Director, relative to our booklet, "Expose of Soviet Espionage, May 1960."

PERSONAL AND CONFIDENTIAL

Mr. Victor P. Keay
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Keay:

A thorough analysis has been made of the facts relating to the handling by the Liaison Section during July, 1950, of a communication received from another Government agency in the Loyalty of Government Employees investigation regarding Nancy Anne Hancock. The Bureau has noted that this memorandum which was dated July 12, 1950, was returned to the agency which sent it and retained in its files without any record having been made of the memorandum or its contents for FBI records; further, a Liaison Section supervisor discussed the case with a representative of the agency in question at about the pertinent time. From the above it appears likely that the communication was improperly returned to the originating agency and that this was done either intentionally or inadvertently by a Liaison Section representative.

Inasmuch as you were in charge of the Liaison Section during the pertinent period it was your responsibility to have insured that personnel under your supervision carried out their duties in accordance with all the policies, instructions and practices of the Liaison Section. Obviously, you did not properly discharge this responsibility. In the future you will be expected to take proper measures to insure against such laxity on the part of personnel under your supervision.

SYNOPSIS:

Loyalty investigation requested by G-2 6-30-49. Reports transmitted to Civil Service Commission and Department 10-28-49. Request for supplemental investigation received 12-16-49 with respect to associates of [redacted] and alleged "slipping out" of copy of top secret document. Memorandum dated 1-5-50 recommended discussion of this case with G-2. Handled by Liaison Agent Bates with [redacted] G-2, who advised no investigation necessary, by notation made in file [redacted] IDA (Intelligence Division of the Army), advised no further investigation. IDA desires nothing further, 1-9-50, CWB."

The Director inquired (1) did G-2 confirm this conversation with Bates by letter and (2) did Bureau ever put in writing to G-2 the fact that Bureau was not conducting espionage investigation unless supporting facts for such investigation were made available by G-2. Bureau files reflect no letter from G-2 confirming Bates' conversation and there is no indication in Army files that such a letter was written. The only notation in Bureau files verifying this discussion is the one referred to above as having been placed on 1-5-50 memorandum by Liaison Agent Bates. No letter of confirmation was sent to G-2. Agent Bates has been censured in this regard.

On 7-26-55, Liaison Agent [redacted] from 62-3718-248 copy of an original memorandum dated 7-12-50 addressed to Director, FBI, attention S. W. Reynolds. It was signed [redacted]

The memorandum requested FBI to advise the status of investigation requested by G-2 in the memorandum dated 12-16-49. It is noted this original memorandum, although sent to the FBI and actually date-stamped on the back as having been received in the Bureau, was returned to Army files.

Memorandum to Mr. Boardman

Current inquiry reflects [] recalls interview by Agent Bates late 1949 or early 1950 and subsequent interview by former SA Reynolds in mid 1950. [] believes he prepared memorandum for G-2 files on conversation with Reynolds. While a positive statement cannot be made, it appears Reynolds' interview with [] was based on 7-12-50 memorandum. Identity of supervisor in Loyalty Section who handled 7-12-50 memorandum not established; however, former SA Earl E. Riley was assigned to War Department cases at that time.

Former SA S. W. Reynolds on interview 7-29-55, advised that he recalls [] case vaguely and remembers that the Army had a difficult time in trying to get rid of []. He states he has no recollection of handling this case with [] in 1950, nor does he have any recollection of a supervisor in the Loyalty Section asking him to take up this case with the Army. Reynolds gave details concerning procedures followed by him and stated if [] says he, Reynolds, discussed this case with him in mid July, 1950, he probably did so. Reynolds then stated if he had discussed the case with [] he would have dictated a memorandum covering his discussion as was his procedure in such instances. Bureau file does not reflect a memorandum by Reynolds and in view of [] statement that Reynolds did discuss the case with him, it appears Reynolds must be the person who actually handled this matter.

In an effort to determine what information was available in G-2 files on the 7-12-50 memorandum, on 7-26-55 G-2 located a summary memorandum prepared in March, 1951, for the benefit of "Disposition Section," who had been requested to make a determination of [] under Executive Order 9835. This summary referred to the memoranda of 12-16-49 and 7-12-50 which were submitted by G-2 to the FBI and stated there was no reply to either memorandum. This summary reflects that [] of the Investigations Section had advised in connection with above-mentioned memoranda that FBI had informally advised [] no further investigation would be made.

Detailed interview by Philadelphia Office with [] reflects [] case developed into "family row" between his Security Section and Intelligence Section of G-2; that [] Intelligence Section, G-2, interested in discharging [] because of alleged indiscretion and that Security Section, G-2, in cooperation with FBI should develop adequate reason for dismissal.

Memorandum to Mr. Boardman

[redacted] of opinion he placed "memorandum for record" in [redacted] file after discussing this case with former Liaison Agent Reynolds. On 7-29-55, G-2 advised they were unable to locate such a memorandum prepared by [redacted]

OBSERVATION:

What appears to have happened in this case is pure conjecture on my part. It is believed that the supervisor in the Loyalty Section upon receipt of the July 12, 1950, memorandum called for the case file, noted the memorandum of January 5, 1950, recommending this case be discussed with G-2, and the notation placed thereon by Liaison Agent Bates on January 9, 1950, that [redacted] IDA (Intelligence Division of the Army, advised no further investigation desired. The supervisor apparently either with or without authorization of an official of the Loyalty Section sent the July 12, G-2 memorandum to the Liaison Section or to the Liaison Agent and suggested that this memorandum be handled. I repeat that this is conjecture on my part, but I know of no other solution as to what actually happened in the absence of notations on the original of the July 12, G-2 memorandum.

COMMENTS OF SECTION CHIEF C. H. STANLEY, EMPLOYEES SECURITY SECTION

Section Chief Stanley advised that he does not recall seeing the G-2 memorandum of July 12, 1950, at which time he was in charge of the Loyalty Section, then a part of the Domestic Intelligence Division. Stanley states instructions were at that time and are now that supervisors should not handle requests for investigations or reinvestigations on an informal basis. Therefore, the July 12, 1950, request of Army should have been made a matter of record in Bureau files.

COMMENTS OF V. P. KEAY, INSPECTOR, DOMESTIC INTELLIGENCE DIVISION

Mr. Keay, former Section Chief, Liaison Section, states that if a Liaison Agent did return the July 12, 1950, G-2 memorandum to the Army as conjectured in paragraph set forth under "Observation," it would have been against all policies, instructions, and practices of the Liaison Section. Keay states he endeavored to keep close control over the activities of Liaison agents by becoming acquainted with and being in contact with their various liaison contacts; by acquainting himself with their work through regular daily discussions with them; and by regular weekly conferences in which matters of policy were reiterated and discussed. He advised that at no

Memorandum to Mr. Boardman

time was there a discussion with him by SA Bates or former SA Reynolds relating to the returning of the July 12, 1950, memorandum to G-2, and he feels that due to the control he had at that time he firmly believes that the Liaison agents would have discussed such a move with him if it were contemplated.

Keay advises with reference to the conjecture that the letter was returned by a Liaison agent that he must point out that this letter could have gotten back to G-2 accidentally, that is, attached to other mail going to G-2. He does not believe that it is safe to assume that a Liaison agent returned the letter because there would seem to have been no reason for such handling. Keay states that former Liaison Agent Reynolds was a highly competent and trustworthy Agent and there are absolutely no facts to definitely establish that the letter was returned by Reynolds.

And Reynolds could have absent-mindedly
CONCLUSIONS: Left the letter

1. Because there are no notations on the G-2 memorandum dated 7-12-50, the original of which was returned to G-2 in some manner, and the absence of written memorandum in the Bureau file, it is not possible to definitely fix responsibility concerning employees who handled the return of this memorandum to G-2.

2. During current inquiry, [] states Reynolds did discuss this case with him in mid 1950 (memorandum was dated July 12, 1950).

3. Former Agent Earl E. Riley was the supervisor assigned to War Department loyalty cases in July, 1950. Under normal conditions, the July 12 memorandum would have been handled by him. Leave records of Riley do not preclude his having handled this case.

RECOMMENDATIONS:

1. Although the facts available do not conclusively prove that the July 12, 1950, G-2 memorandum was handled by former SA Earl E. Riley and former Liaison Agent S. W. Reynolds, the best

Information available does indicate that they are being handled in the manner in which this memorandum was handled. In view of this, a copy of this memorandum should be placed in their respective personnel files. *I agree job -*

2. Section Chief Stanley, Employees Security Section, was responsible in July, 1950, for the over-all operations of the section. He is recommended for censure in view of the loose manner in which the July 12 memorandum from G-2 was handled in his section.

3. While there has been no definite proof that a Liaison Agent did return the July 12, 1950, memorandum to G-2, based on the comments of [redacted] regarding the discussion that took place between former SA Reynolds and himself, it does appear Reynolds handled this matter. In view thereof, V. P. Keay, in charge of the Liaison Section in 1950, is being recommended for censure because of the loose practices in existence in the Liaison Section at that time.

DETAILS:

Loyalty investigation requested by G-2 June 30, 1949. Reports transmitted to Civil Service Commission and Department October 28, 1949.

By memorandum from Mr. Boardman to the Director dated July 22, 1955, it was pointed out that by letter of December 16, 1949, G-2 requested supplemental investigation with particular emphasis as to the degree of association [] maintained with numerous individuals mentioned in the investigative report of the 116th CIC Detachment, Military District of Washington, concerning [] dated May 6, 1949. It also requested if possible to clarify the incident where [] requested an unidentified woman to assist her in "slipping out" a copy of a top secret document;

A memorandum dated 1-5-50 was prepared in the Loyalty Section authorizing discussion of this matter with G-2. The matter was discussed with [redacted] G-2, by Liaison Agent Bates on 1-9-50; no further facts made available by G-2, and [redacted] advised no need for investigation. Director inquired "Did G-2 confirm this conversation by letter?" Director also asked whether the Bureau ever put in writing to G-2 the fact that the Bureau was not conducting espionage investigation unless supporting facts for such an investigation were made available by G-2.

Memorandum to Mr. Boardman

There is no letter in the Bureau's files and none has been found in Army files showing confirmation in writing by G-2. The only notation to verify this discussion was placed on the memorandum dated January 5, 1950, recommending contact with G-2. This notation is as follows: [] IDA, advised no further investigation. . IDA desires nothing further, 1-9-50, CWB."

In this connection, Liaison Agent C. W. Bates has been censured for not confirming his conversation with Colonel Lynch in a letter from the Bureau to G-2.

JULY 12, 1950, MEMORANDUM FROM G-2

On July 26, 1955, Liaison Agent obtained from G-2 a photostatic copy of a memorandum dated July 12, 1950, in the [] case. This memorandum refers to memorandum of G-2 dated December 16, 1949, regarding [] and requests that G-2 be advised of the status of the requested investigation. This memorandum contained the longhand notation in the left-hand corner at the top "Rec'd from G-2 7/13/50 CWB/cjo." The name "Stanley" was also placed on this memorandum on the right-hand side in longhand. A copy of this memorandum from G-2 has not been located in Bureau files. The original of this Army memorandum shows it was date-stamped into the Loyalty Section on July 14, 1950, at 2:46 PM.

SUPERVISOR RESPONSIBILITY, LOYALTY SECTION

A record of supervisory assignments maintained by the Employees Security Section reflects that former SA Earl E. Riley was supervising War Department loyalty cases wherein the surname started with the letter "H" in January of 1950. Riley continued to handle War Department cases throughout July, 1950, and during July, 1950, was the sole supervisor handling all War Department cases. The December 16, 1949, memorandum from G-2 which requested supplemental investigation was initialed for file by Riley. The next serial in the file is a memorandum dated January 5, 1950, bearing Supervisor A. B. Eddy's initials as the dictator. Eddy supervised this case in the early stages of the investigation. Eddy has no recollection of preparing this memorandum. Eddy was transferred from the Loyalty Section to the Espionage Section on 1-3-50. In view thereof, Eddy would not have been available to initial this (12-16-49) memorandum for filing after action taken by Liaison. It is not possible to make a positive statement that former SA Riley handled the July 12, 1950, memorandum from G-2.

INTERVIEW WITH COLONEL JOHN LYNCH BY PHILADELPHIA OFFICE

By teletype July 28, 1955, the Philadelphia Office furnished results of interview with [] conducted same date. [] recalled discussing the [] case

Memorandum to Mr. Boardman

with Liaison Agent Bates during late 1949 or early 1950. He recalled original investigation requested under Loyalty Program and that subsequently Intelligence Division, G-2, requested additional investigation based on vague suspicions or complaint that [] was "indiscreet." [] believed complaint involved someone eavesdropping on [] telephone call during which she allegedly "talked too much." [] recalls being contacted by Liaison Agent Bates and, after discussion, agreed no further investigation should be conducted by FBI due to vague nature of allegation. [] believed Intelligence Section continued to insist on further investigation and finally FBI Liaison Agent Reynolds met with [] during mid months of 1950 to discuss this problem. [] again agreed no further investigation by FBI necessary.

[] believes "memorandum for record" setting forth oral agreement was prepared and routed to [] file following conversation with Agent Reynolds. States this memorandum should be found in G-2 files pertaining to [] or possibly in [] Civil Service personnel record, which he believed would be a separate file. He noted that G-2 periodically consolidates files and possibly the memorandum might have been destroyed by someone who might not have realized the importance of it.

[] confidentially advised [] case developed into a "family row" between his Security Section and the Intelligence Section of G-2. He insisted that Intelligence Section furnish him with more concrete data regarding allegations before referring the matter to the FBI for additional investigation. [] states he believes a [] then attached to Intelligence Section, G-2, was interested in discharging Haycock because of alleged indiscretion and felt Security Section in cooperation with FBI should develop adequate reason for her dismissal. [] was of the opinion he informed Intelligence Section that if [] was "indiscreet," she should be discharged through normal administrative Civil Service procedure rather than utilizing the Loyalty of Government Employees program. [] further stated his superior at the time was Colonel Ernest "Andy" Barlow, now General Barlow, Fort Benning, Georgia. [] Barlow reviewed all decisions regarding such matters and was in full agreement that facts in this particular matter did not warrant additional investigation by FBI.

Memorandum to Mr. Boardman

From the above it is noted Agent Reynolds did discuss the case with [] during the mid months of 1950. While a positive statement cannot be made that Reynolds' discussion with [] was on the July 12, 1950, memorandum, there appears to be little doubt that this discussion was concerning the July 12, 1950, memorandum.

On July 29, 1955, former Special Agent S. W. Reynolds, now Chief, Security Division, National Security Agency, was interviewed regarding his knowledge of his handling of the July 12, 1950, memorandum from G-2. Reynolds advised he recalled the [] case vaguely and that he remembers the Army had a difficult time in trying to get rid of []. He states he has no recollection of taking up an Army memorandum sent to the Bureau with [] and that he did not remember a supervisor in the Loyalty Section having referred such a memorandum to him for handling with the Army.

Reynolds advised that if [] has stated that he, Reynolds, did take up this matter with [] undoubtedly this was true. Reynolds advised it was his procedure to prepare a memorandum covering such discussions, and he feels that if he did discuss the [] case with [] he would have prepared such a memorandum. Bureau files do not reflect such a memorandum having been prepared by Reynolds concerning this case.

G-2 was requested to locate the "memorandum for record" referred to by [] which he advised should be in [] file covering the oral conversation between Reynolds and []. On July 29, 1955, G-2 advised they were unable to locate a "memorandum for record" referred to above.

ARMY FILES REFLECT BUREAU CONTACT WITH G-2

G-2 located a summary memorandum on July 26, 1955, prepared in March, 1951, exact date not ascertainable due to a hole punched in the paper. This summary contained a reference to the December 16, 1949, and the July 12, 1950, memoranda. The summary memorandum reflects the file of [] presently employed in Intelligence Division, G-2, was given to [] Disposition Section, by [] Investigations Section, this date, with the comment that Civil Service Commission was desirous of a decision in this case under Executive Order 9835. Upon review of the file it was found that there was no written reply to memoranda to the FBI dated December 16, 1949, and July 12, 1950, in the former of which the FBI had been requested to make

further investigation. [] advised that the FBI informally had advised [] that no further investigation would be made.

While this does not accurately portray the comments of the Bureau to [] on January 9, 1950, it does reflect Army was aware of discussion of the [] case by a Bureau representative with regard to both the December 16, 1949, and the July 12, 1950, memoranda.

NOTATIONS DATED JULY 19, 1950, APPEARING ON BUREAU FILE COPY OF LOYALTY REPORTS IN THIS CASE

The original reports utilized as file copies in this case bear the notation "cc - Photo - G-2, CWB, 7-19-50, cd, Ret 7-25-50, mad." This notation means that a Photostatic copy was made for G-2 on July 19, 1950, at the request of Liaison Agent C. W. Bates. The initials "cd" are believed to be those of serial remover [] The remainder of the notation means that the original report was returned for file July 25, 1950. The initials "mad" are those of []

Liaison Agent Bates advised that his recollection of this case was that he discussed with [] the information set forth in Bureau memorandum dated January 5, 1950.

With regard to the notations dated July 19, 1950, Bates states he assumes reports furnished at request of G-2 to Liaison. He has no recollection of any action taken by him on the G-2 memorandum of July 12, 1950.

Inspector Keay is in charge of the Internal Security and Liaison Branch of the Domestic Intelligence Division. He was placed on probation on February 23, 1955, in connection with his over-all responsibilities in the handling of the Matusow case. Since that time he has received 4 letters of censure: on March 10 - for dilatory handling of a matter of personnel under his supervision; on April 4 - for failure of personnel under his supervision to insist on field compliance in connection with errors; on April 28 - for lack of aggressiveness in supervision of the Border Coverage Program; and on May 3 - for approval of a SAC letter which had been improperly prepared.

Inspector Keay has been most carefully following the Border Coverage Program during recent months and definite strides are being made by the field in this program. He has been actively engaged in supervising the War Plans and relocation plans of the Bureau and has been putting in long hours and carefully supervising the men in both the Internal Security Section and the Liaison Section. Keay is definitely a valuable employee of the Division. He has an excellent background in the Bureau's liaison work. He is doing a good job in supervising a tremendously large volume of work in both of these Sections.

RECOMMENDATION:

It is recommended that Inspector Keay be considered for removal from probation at this time.

PERSONAL

Dear Mr. Hoover:

Since I am unable to see you personally, I am taking this means of advising you of my deep concern and feeling of responsibility for the various incidents which have occurred in connection with our liaison work. I, of course, am well aware of the importance of this operation to the Bureau as I was in direct charge of it over a period of years and it is still indirectly under my supervision as part of the branch which I have in the Domestic Intelligence Division. I cannot help but feel that I have let you down.)

I do believe, however, that I can do the job as you want it done. I want to assure you that I will do my very best in the future to handle any assignment you want to give me as I have a very definite interest in my work and in my future career in the Bureau. I sincerely hope that I can handle my assignments so as not to let you down again.

Sincerely yours,

Victor P. Keay

Dear Mr. Means:

I have received your letter of August 12, 1955, advising me of your deep concern and feeling of responsibility for the various incidents which have occurred in connection with our liaison work. I am also concerned with the manner in which you have supervised the activities of the Internal Security Section. This section has not been functioning properly.

After giving very careful consideration to the incidents which have occurred and which have been called to your attention, you are being removed as Inspector in Charge of the Internal Security-Liaison Branch and being reassigned to other duties in the Training and Inspection Division. This change will involve your being demoted from \$12,000 per annum in grade GS 10 to \$12,150 per annum in grade GS 15, effective August 30, 1955.

You should arrange your work so that you can report to Mr. Harbo for assignment without delay.

RE: REMOVAL FROM PROBATION

Inspector Keay was PLACED ON PROBATION on 2-23-55 because of the lack of analysis and foresight manifested by him in making changes in investigative reports in which former confidential informant Harvey Matusow had furnished information. Since that time he has received five letters of CENSURE; on 3-10-55 for dilatory handling of a matter by personnel under his supervision; on 4-4-55 for failure of personnel under his supervision to insist on field compliance in connection with errors; on 4-28-55 for lack of aggressiveness in supervision of the Border Coverage Program; on 5-3-55 for approval of an SAC letter which had been improperly prepared; and on 8-11-55 for mishandling by the Liaison Section during July, 1950, of a communication received from another Government agency in the Loyalty of Government Employees investigation regarding [redacted]

By memorandum dated 7-22-55 (received Administrative Division 8-19-55) Mr. Hennrich (acting for Mr. Belmont) recommended that Mr. Keay be considered for removal from probation. However, Mr. Boardman did not concur in this recommendation.

RECOMMENDATION OF ADMINISTRATIVE DIVISION:

(In view of the administrative action taken against Mr. Keay since he was placed on probation and in view of Mr. Boardman's failure to concur in the recommendation that he be considered for removal from probation, it is recommended that he be continued in a probationary status and considered for removal at the expiration of 60 days.

I have carefully reviewed the delinquencies existent in the functioning of the Liaison-Internal Security Sections of the Domestic Intelligence Division, headed by Inspector Victor P. Keay, with the view to determining whether any changes are indicated in the management of this operation. Because of the international situation, the Domestic Intelligence Division of the Bureau is an extremely important and sensitive operation. Any malfunctioning of this Division has a potential for causing irreparable damage to the reputation of the FBI.

The Liaison and Internal Security Sections of this Division are particularly sensitive and it is essential that they be under the direct guidance of a man with keen foresight, strict, aggressive leadership qualities, sound judgment and an analytical mind. Although Inspector Keay has some of these qualities, I must conclude that he has exhibited specific shortcomings since he reported to the Domestic Intelligence Division to assume his duties as Inspector in Charge of the Internal Security-Liaison Sections on June 1, 1954, which force me to conclude that he should be relieved of this assignment and transferred to other duties which will be indicated hereinafter. The situations which lead me to this conclusion are summarized below.

By letter dated January 19, 1955, he was censured for faulty judgment in having failed to acknowledge a cablegram request by an inspector of the Panama Secret Police for information concerning [REDACTED]

67-36842-281

By letter dated February 23, 1955, he was censured and placed on probation for failure to recognize the undesirable position in which the Bureau was placed as a result of the substitution of corrected pages in the reports in the files of [REDACTED]

another agency in the manner which was being followed. A substantial volume of corrections in previously disseminated reports were necessary to reflect a change in the reliability of former Confidential Informant Harvey Matusow. A lack of foresight in the handling of this situation resulted in considerable embarrassment to the Bureau.

By letter dated March 10, 1955, he was censured for the dilatory handling by the Internal Security Section of a proposed Letter to All SACs based on a letter dated January 24, 1955, from the Assistant Commissioner of the Immigration and Naturalization Service.

By letter dated April 4, 1955, he was censured for the ineffective operation of personnel of the Internal Security Section in connection with errors in reports received at the Seat of Government from field divisions wherein the supervisors had been insufficiently aggressive in insisting that field divisions comply with existent Bureau regulations relative to the handling of the errors contained in reports from the field.

By letter dated April 28, 1955, he was censured for the ineffective supervision afforded by the Liaison Section to the Mexican Border Coverage Program. Concerning the Mexican Border Coverage Program, the Director commented, "I can't too strongly stress my displeasure with the completely lethargic attitude of the Domestic Intelligence Division which obviously has allowed this whole program to go to seed. Just who has been in charge of it?" Mr. Keay was in charge of the Liaison Section until June 1, 1954, and the Mexican Border Coverage Program was commenced in April, 1948, so that during the majority of the period of time this program was in existence it was under the supervision of Inspector Keay.

By letter dated May 3, 1955, he was censured for approving an improperly prepared letter to all SACs pertaining in part to a revised thumbnail sketch on the Liberty Book Club.

By letter dated August 11, 1955, he was censured for the laxity in the administrative functioning of the Liaison Section which permitted a memorandum dated July 12, 1950, concerning the [redacted] Loyalty of Government Employees, case to be received in the Bureau from G-2 and returned to G-2 without any record having been made of the memorandum or its contents for FBI records.

Better foresight and planning could have eliminated or minimized difficulties encountered in an outburst of problems pertaining to control of informants, commencing with the Brown case in Los Angeles, closely followed by the Harvey Matusow case and others of a similar nature; securing of a relocation site, improper functioning of E. S. Sanders as Executive Secretary of the IIC, and of John F. Sullivan, liaison agent with the Army, in his handling of the [redacted] case. These problems arose within the Internal Security and Liaison Sections over which Keay has direct responsibility.

b6
b7c

I have discussed with Assistant Director Belmont this recommendation for the replacement of Keay. Mr. Belmont advises that he recognizes that there have been definite deficiencies in these two sections and there have been specific delinquencies attributable to Keay. He feels, however, that Keay, if given another chance, has the ability to rectify the deficiencies existing in these two sections and does not concur in my recommendation.

RECOMMENDATIONS:

1. That Inspector Keay be relieved of his assignment as Inspector in Charge of the Liaison-Internal Security Sections, Domestic Intelligence Division; that he be changed from GS-16 to GS-15 and transferred to the Inspection and Training Division to assume the duties presently being handled by G. A. Nease, assuming that my subsequent recommendation concerning Mr. Nease is approved.

{ A review of Mr. Keay's personnel file reflects that he has exhibited better-than-average capacity to make analyses of involved Bureau problems, and it is felt his services could be effectively utilized in the Inspection and Training Division for this purpose.

*James

2. That Inspector J. A. Sizoo, if recommendation number one is approved, be transferred to the Domestic Intelligence Division to assume charge of the Internal Security-Liaison Sections.

Inspector Sizoo was in charge of the Internal Security and Liaison Sections from September 15, 1953, to June 1, 1954. I think that this assignment would add the strength to this Division which I feel is urgently needed.

This recommendation has been discussed with Mr. Belmont who stated that Sizoo's services were very satisfactory during his assignment in the Domestic Intelligence Division and he concurs in this recommendation, if the Director accepts my recommendation for Keay's reassignment.

By letter dated 8-23-55 Mr. Keay was REMOVED as Inspector in Charge of the Internal Security - Liaison Branch of the Domestic Intelligence Division (which position he had held since 6-1-54) and reassigned to duties in the Training and Inspection Division in view of the manner in which he had supervised the activities of the Internal Security Section and the Bureau's Liaison work. In connection with this change he was also DEMOTED from GS-16, \$12,900 to GS-15, \$12,150, effective 8-28-55. He reported to the Training and Inspection Division on 8-25-55 and was assigned to the Inspection and Planning Section.

Mr. Keay had previously written the Director on 8-12-55 advising of his deep concern and feeling of responsibility for the various incidents which had occurred in connection with the Bureau's liaison work. He stated he was well aware of the importance of this operation as he had been connected with its supervision over a period of years. He felt he had let the Director down but believed he could do this job as the Director wanted it done. He assured he would do his very best in the future to handle any assignment the Director might give him and sincerely hoped he could handle his assignments so as not to let the Director down.

During the past 12 months Mr. Keay has been the recipient of administrative action on seven occasions leading to his removal as Inspector in Charge of the Internal Security - Liaison Branch, as follows:

282
CENSURED 1-19-55 for faulty judgment in connection with cablegram request by Inspector of Panama Secret Police for information concerning one [redacted] After it had been recommended and approved that any information developed in the field regarding [redacted] be referred to the State Department for transmittal to the Panama Secret Police, he took the position it was not necessary for the Bureau to acknowledge the Inspector's cablegram but rather that acknowledgment was the function of the State Department.

CENSURED AND PLACED ON PROBATION 2-23-55 for lack of analysis and foresight manifested by him in making changes in investigative reports in which former confidential informant Harvey Matusow had furnished information.

CENSURED 3-10-55 for dilatory handling by personnel under his supervision of a proposed letter to all SACs concerning the procedure to be followed in securing information from files of Immigration and Naturalization Service. The incoming mail from INS on which this SAC letter was based was received in Internal Security Section on 2-4-55 but was not handled to completion by him and his subordinates until 2-16-55 and did not finally clear the Domestic Intelligence Division until 2-18-55.

CENSURED 4-4-55 for failure of personnel under his supervision to insist on field compliance in connection with errors in reports.

CENSURED 4-28-55 for lack of aggressiveness in supervision of the office of the Legal Attache in Mexico and the Mexican Border Coverage Program. The Liaison Section had allowed this program to deteriorate and had permitted the Legal Attache's Office to operate to suit itself.

CENSURED 5-3-55 for approving an SAC letter which had been improperly prepared in that a thumbnail sketch (used by the field for documenting reports) on the Liberty Book Club did not comply with existing instructions because it concealed the identity of the individual who furnished data regarding this organization.

CENSURED 8-11-55 for mishandling by the Liaison Section during July, 1950, of a communication received from Army authorities in connection with the Loyalty of Government Employees investigation concerning [redacted]. The memorandum in question had been returned to the agency which sent it and retained in its files without any record having been made of the memorandum or its contents for FBI records. Further, a Liaison Section supervisor discussed the case with a representative of the Army at about the pertinent time. Mr. Keay was in charge of the Liaison Section during the pertinent period and failed to insure that personnel under his supervision carried out their duties in accordance with established policies and instructions.

Mr. Keay has been on probation since 2-23-55. He was recently considered for removal but was continued on probation to be reconsidered at a later date because of the recent administrative action taken against him. His overtime for the past several months has averaged over 3 hours per day.

During the past 12 months he has received one letter of COMMENDATION dated 1-24-55 for the magnificent job accomplished by him and his associates in handling a special project incidental to the proposal of the Solicitor General as to revealing confidential sources and informants in connection with loyalty cases.

RECOMMENDATION:

The above is submitted to briefly summarize the record of Mr. Keay for the Director's use in the event the Director should see him.

Dear Mr. Keay:

ALAN H. BELMONT

My memorandum dated August 11, 1955, outlined delinquencies in the handling of instant matter and contained recommendations for administrative action as to Seat of Government supervisors. Concerning this, the Director inquired, "Just what are Belmont's and Keay's responsibilities in this matter?"

Neither Keay nor Belmont approved the basic memorandum dated August 1, 1955, prepared by supervisor E. C. Byrnes, which I considered inadequate. Belmont was on annual leave at the time this matter came to my attention. Upon his return from annual leave on August 4, 1955, I discussed this matter with him and he readily concurred that the action on the part of Messrs. Byrnes, Henry, and Baumgardner was indefensible. Thereafter Belmont emphatically brought to the attention of his subordinates the necessity for taking prompt, vigorous action concerning delinquencies on the part of the field and upon the part of any Bureau supervisor who failed to properly follow the field.

Inspector Keay, who was then Inspector in charge of the Internal Security and Liaison Sections, bore an over-all responsibility for the functioning of the Internal Security Section as, of course, does Belmont in his capacity as Assistant Director.

At the time I prepared my memorandum of August 12, 1955, recommending the removal of Keay as Inspector in charge of the Liaison and Internal Security Sections, instant matter, as well as other delinquencies in the Liaison and Internal Security Sections to which I made specific allusion in my memorandum of August 12, 1955, was taken into consideration in said recommendation for removal. In view thereof I make no recommendation for administrative action as to Keay in instant matter.

This is to advise that my Bureau badge cannot be located. I have been on extended annual leave, spent principally at home, and have not carried my badge, but have left it in my dresser. On returning to work yesterday, during the day I discovered I did not have my badge with me but thought nothing of it since I was certain it was in the dresser at home. However, I did not locate it at my home last night.

Thinking back, last time I recall having the badge was several days ago when I did have it in my pocket while working on moving some dirt, laying drain tile and concrete. I do not recall why I had put it in my pocket at that time. I have not seen it since.

I am certain the badge was not stolen from the dresser nor did I lose it off my own premises. I am certain, therefore, that it is buried someplace in the dirt or in the concrete and that it somehow inadvertently slipped from my pocket during this work.

To say that I regret losing it is an understatement. It makes me positively ill to think that I should ~~have~~ this badge after carrying it for over 21 years.

SUBJECT: VICTOR P. KEAY
INSPECTOR

LOSS OF BUREAU BADGE

Inspector Keay advises in attached memorandum dated 10/6/55, that his Bureau badge #349 apparently has been lost. Inspector Keay returned to work from extended annual leave on 10/5/55, and noted during the day he did not have his badge. He has since searched his home, checked with the cleaners and looked in all logical places where he might have dropped it. He now recalls that he had it in his pants pocket several days ago while he was moving dirt and laying drain tile and concrete at his home. He has not seen it since and he believes that it must have slipped from his pocket and is now buried in the dirt or in the concrete around his home. He states that it makes him positively ill to think that he has lost this badge after carrying it for over 21 years.

RECOMMENDATION:

1. Inspector Victor P. Keay.....CENSURE.

2. That another Bureau badge be issued to Inspector Keay.

SUBJECT: VICTOR P. KEAY
 GS-15 - INSPECTOR
 TRAINING AND INSPECTION DIVISION

BACKGROUND:

Keay was removed as Inspector in Charge of Internal Security - Liaison Branch of Domestic Intelligence Division 8/23/55 and transferred to the Training and Inspection Division with demotion from GS-16, \$12,900 to GS-15, \$12,150, effective 8/28/55. He had been censured 7 times during the preceding 12 months and this led up to his removal. He has been on probation since 2/23/55 at which time he was censured for lack of analysis and lack of foresight in making changes in investigative reports in which former confidential informant Harvey Matusow had furnished information.

Among the other censures were those relating to: failure to acknowledge cablegram request from an Inspector of the Panama Secret Police; dilatory handling by personnel under his supervision of a proposed letter to all SACs concerning procedure to be followed in securing information from Immigration and Naturalization Service; failure of personnel under his supervision to insist on field compliance in connection with reporting errors; lack of aggressive supervision of Mexican Border informant coverage; approval of improper SAC Letter involving incomplete thumbnail sketch on Liberty Book Club; mishandling of communication from Army relating to Nancy Ann Haycock.

Commended 1/24/55 for magnificent job in handling a special project incidental to a proposal of the Solicitor General that confidential sources and informants in loyalty cases be revealed.

Censured 10/11/55 for having lost his FBI Badge.

ACTION TAKEN:

During his period of service in the Training and Inspection Division since 8/25/55, Mr. Keay has been learning inspection procedures; assisted Inspector B. C. Brown in the Albany and New York City inspections; conducted several inquiries at the Seat of Government and has performed satisfactorily.

Note: The regulations require that OUTSTANDING ratings be supported by a statement in writing setting forth IN DETAIL the performance IN EVERY ASPECT and the REASONS for considering each worthy of SPECIAL COMMENDATION. PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Name of Employee VICTOR P. KEAY Title INSPECTOR
GRADE GS-15, \$12,150
 Rating Period: from 8/25/55 to 10/25/55

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
0 No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out on the reverse of form FD-185.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out on the reverse of form FD-185.

RE: VICTOR P. KEAY
INSPECTOR
INSPECTION & PLANNING SECTION
TRAINING & INSPECTION DIVISION
EOD 6/25/34; GS-15, \$12,150
NON-VETERAN; ON PROBATION
SIXTY-DAY PERFORMANCE RATING

This Sixty-day Performance Rating is being submitted in evaluation of Inspector Keay's services for the period since August 25, 1955, when he reported for duty in the Inspection and Planning Section of the Training and Inspection Division. Keay had been removed as Inspector-in-Charge of the Internal Security - Liaison Branch of the Domestic Intelligence Division and was demoted from Grade GS-16 at \$12,900 to GS-15 at \$12,150, effective 8/28/55, because of weaknesses in his supervision of the activities of the Internal Security Section and the Bureau's liaison work. Keay has been on probation since 2/23/55, for lack of analysis and foresight manifested by him in making changes in investigative reports in which former Confidential Informant Harvey Matusow had furnished information.

With the Bureau's approval, Inspector Keay was permitted to take annual leave 9/15 - 10/4/55. Keay was censured 10/11/55, because of the loss of his FBI badge.

Inspector Keay has been assisting Inspector B. C. Brown in (1) Albany recheck 10/11 - 14/55 and (2) New York recheck 10/15/55, to date. Inspector Brown reported that, at Albany, Keay reviewed the Security Program and Security Informant Matters, examined the physical condition and maintenance of the office and conducted inquiry into some of the administrative operations. Brown also advised that, at New York, Keay has been reviewing administrative operations and surveying the Intensification Program, including (1) examination of lookout posts (2) review of physical surveillance logs, (3) interview of Agents and Supervisors engaged in physical surveillance work and (4) review of supervisory organization and control of physical surveillance squads.

Inspector Brown stated that Keay (1) is thoroughly grounded in Bureau policy; (2) has shown a great deal of tenacity and determination; (3) has displayed an inquisitive, searching approach; (4) has evidenced thorough interest in all phases of inspection procedures and has shown no difficulty in understanding and applying them; (5) evaluates tightly without considering personalities; (6) has submitted acceptable memoranda, and (7) has provided sound counsel and instruction to the Aides. Keay's voluntary overtime

during October 1955, averaged approximately 4 hours, 45 minutes per day.

It is felt that Keay has profited from his participation with Brown in the two, above-mentioned rechecks and that, as soon as Keay receives further training with an experienced Inspector in the conducting of full field inspections, he should be able to conduct inspection duties by himself.

This memorandum concerned an UNKNOWN SUBJECT "L.P.," apparently a female, who met captioned subject in 1933 through subject's sister, a school friend of "L.P."

"L.P." went with subject for three years and was engaged to him. The engagement was subsequently broken as a result of personal disagreement.

Investigation is currently aimed at determining the identity of "L.P.," a former fiance of the subject.

Subject was born August 15, 1905, at Elizabeth, New Jersey. His father is believed to have operated a drug store in Elizabeth.

Subject received a B.S. Degree in 1928 from the University of Pennsylvania and an LL.B. Degree in 1932 from the New Jersey Law School. On June 25, 1934, subject entered on duty as a Special Agent of the FBI and on August 20, 1934, resigned upon request.

Prior to his entrance into the Bureau subject was employed as an attorney by a law firm in Elizabeth.

In November, 1934, subject was employed as a Special Agent for Oil Enforcement with the Interior Department, Division of Investigation, in Texas, and was subsequently employed by the NLRB.

~~MRS. HENRY WILKINS~~ ~~SCHMIDT~~

During 1939 subject married one ~~JEANNE UPSON~~ ~~SCHMIDT~~ of Lockport, New York. Subject has resided in Lockport since 1940, where he has been connected with the Upson Company.

Investigation has not developed any CP connections on the part of subject or members of his family. However, interview of subject is not presently considered appropriate.

Subject's requested resignation from the Bureau on August 20, 1934, was predicated upon his unsatisfactory development, his eccentricities, erratic mannerisms and lack of judgment. At the time of his resignation he made untrue charges against the Bureau.

While attending the Bureau's training school, subject advised he intended to be married at the conclusion of this school and that his fiance resided in Elizabeth.

Bureau records reflect the following Special Agents have the same EOD date as subject:

Inspector KEAY advised on November 14, 1955, he had no recollection of subject or his fiance.

For the Minneapolis and Washington Field Offices there are enclosed two photographs of subject, the originals of which were contained in his Bureau personnel folder.

Minneapolis and WFO are requested to conduct the following investigation in an effort to obtain identifying data regarding "L.P.," subject's fiance whom he apparently intended to marry in 1934, following completion of the Bureau's training school:

- 1.) Exhibit subject's photograph to the Special Agent or Special Agents presently in its division whose names are set forth above and endeavor to refresh their recollection

of subject by furnishing the background information set forth herein. It is noted that subject may be recalled inasmuch as the reasons for Bureau having requested his resignation suggest subject may have stood apart from other members of his training class.

- 2.) Will furnish Buffalo all items of information so obtained having any possible bearing upon the identity of subject's fiance.

BACKGROUND:

Keay was transferred to the Training and Inspection Division 8/23/55, following his removal as Inspector-in-Charge of Internal Security - Liaison branch of Domestic Intelligence Division. He was demoted from Grade GS-16, \$12,900 to GS-15, \$12,150, effective 8/28/55. He had been censured seven times during the preceding twelve months; he has been on probation since 2/23/55, at which time he was censured for lack of analysis and lack of foresight in making changes in investigative reports in which former confidential informant Harvey Matusow had furnished information.

He was commended 1/24/55, for magnificent job in handling a special project incidental to a proposal of the Solicitor General that confidential sources and informants in Loyalty cases be revealed. He was censured 10/11/55, for losing his FBI badge (recovered December 1955).

PERFORMANCE AS FIELD INSPECTOR:

Inspector Keay assisted Inspector B. C. Brown in the Albany and New York City recheck inspections; conducted several inquiries at the Seat of Government satisfactorily; has been in charge of inspections of the Indianapolis, Minneapolis, Anchorage and Portland Offices, is now inspecting Memphis. He is still in the learning stage on field inspections, but is well grounded on Bureau policies and his progress as a field Inspector is considered satisfactory. His overtime for the month of December averaged 3 hours, 48 minutes per day, as compared to the Section average of 3 hours, 22 minutes. His attitude has been excellent and he appears to be enthusiastic about field inspections.

RECOMMENDATION:

PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Name of Employee VICTOR P. KEAY Title INSPECTOR
GRADE GS-15, \$12,420
Rating Period: from 4/1/55 to 3/31/56

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
○ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out on the reverse of form FD-185.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out on the reverse of form FD-185.

RE: VICTOR P. KEAY
INSPECTOR
GRADE GS-15, \$12,420
INSPECTION AND PLANNING SECTION
TRAINING AND INSPECTION DIVISION
ANNUAL PERFORMANCE RATING

PART I GENERAL COMMENTS

Mr. Keay was transferred to the Training and Inspection Division on 8/25/55. He has been assigned to the Inspection and Planning Section since that time, learning field inspection work, conducting field inspections and Seat of Government surveys. Inasmuch as Mr. Keay served a substantial portion of the rating period in the Domestic Intelligence Division, this is a composite rating summarizing Mr. Keay's performance in the Domestic Intelligence Division, as well as in the Training and Inspection Division.

A 60-day Special Performance Rating on 10/31/55 stated that Mr. Keay had been removed as Inspector-in-Charge of the Internal Security - Liaison Branch of the Domestic Intelligence Division and was demoted from Grade GS-16 to Grade GS-15 effective 8/28/55 because of weaknesses in his supervision of the activities of the Internal Security Section and the Bureau's liaison work. Mr. Keay was placed on probation 2/23/55 for lack of analysis and foresight manifested by him in making changes in investigative reports in which former Confidential Informant Harvey Matusow had furnished information.

Inspector Keay assisted Inspector B. C. Brown in the Albany recheck inspection in October 1955 and in the New York recheck inspection in October and November 1955. Mr. Keay made very satisfactory progress in learning inspection procedures.

Mr. Keay thereafter was in charge of the Indianapolis, Minneapolis, Anchorage, Portland and Memphis inspections. He also completed a recheck of the Washington Field Office. He is well grounded in Bureau policies and his progress as a Field Inspector is considered satisfactory. His attitude has been excellent and he appears to be enthusiastic about field inspections. \

Re: Victor P. Keay
Annual Performance Rating

On 6/25/55 the Director congratulated Mr. Keay upon his Twenty-first Anniversary as a member of the FBI.

Mr. Keay was removed from probation on 2/3/56.

Stenographers rate him as a very good dictator. His daily overtime for the months of December 1955, January and February 1956, averaged 3 hours and 23 minutes per day. He is in excellent health, as reflected by the fact that he has accumulated over 1,000 hours of Sick Leave.

PART II SPECIFIC COMMENTS

1. Justification for Any Minus Ratings Given

No minus ratings given.

2. Experience and Ability as Inspector's Aide

Mr. Keay served very satisfactorily in a learning capacity on two field inspections and thereafter has been in charge of the inspections in which he has participated.

3. Participation in Informant Programs

Not applicable.

4. Testifying Experience and Ability

Not applicable.

5. Disciplinary Action

Mr. Keay began the rating period on probation, as noted above under General Comments. During the rating period, he has received the following letters of censure:

4/4/55 - for inadequate over-all supervision of the Internal Security - Liaison Branch, which failed to take adequate action in connection with errors in reports received at the Seat of Government from field divisions.

4/28/55 - for failure of Mr. Keay to adequately discharge his responsibilities while Chief of the Liaison Section, and subsequently as Inspector-in-Charge of the Internal Security - Liaison Branch of the Domestic Intelligence Division, in that the Liaison Section had allowed the Mexican Border Coverage Program to deteriorate.

WPK

5/3/55 - for approval of proposed Letter to All Special Agents in Charge concerning a thumbnail sketch which failed to comply with existing instructions.

8/11/55 - for inadequate handling of a communication from another Government agency in the [redacted] Loyalty of Government Employees case in July 1950, while Mr. Keay was in charge of that Section.

8/23/55 - Mr. Keay was removed as Inspector-in-Charge of the Internal Security - Liaison Branch, Domestic Intelligence Division and demoted from \$12,900 per annum in Grade GS-14 to \$12,150 per annum in Grade GS-15, effective 8/28/55, because of the incidents previously called to Mr. Keay's attention.

10/11/55 - he was censured for loss of FBI badge; (later found and returned by another agency).

6. Accounting Information

Not applicable.

7. Police Instruction

Not applicable.

8. Sound Training

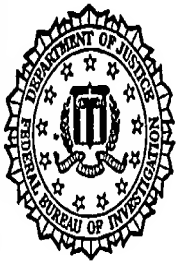

Not applicable.

9. Potentiality for and Interest in Administrative Advancement

Mr. Keay is fully available and interested in administrative advancement. I believe that his long and varied experience in the Bureau would qualify him for a position of greater responsibility and that he could adequately handle such assignment.

Assistant Director E. D. Mason (Inspector B. C. Brown):

This writeup is prepared at the request of Inspector Trotter for inspection purposes.

The comments contained in Mr. Keay's Annual Performance Rating of 3/31/56 still apply. Mr. Keay continues to do a satisfactory workmanlike job on his inspection assignments. He is enthusiastic about the work, continually offers suggestions for the improvement of inspection service and enjoys the travel connected with his assignment. He is still learning inspection techniques and his paper work requires average supervision for a man on inspection work only a relatively short time.

Rating: Satisfactory

Inspector Trotter: He had no problems nor suggestions to offer at the time of interview, although indicated he had some ideas which he was still working on. He likes inspection work but would not prefer it for all of the time in the future. He prefers an assignment at the Seat of Government where he can organize and perform administrative functions. This is what he formerly did prior to his assignment to the Training and Inspection Division. He feels that inspections are good experience - one that he would not have wanted to have missed.

He is 51 years old, married and has 1 son who is going to be married When his boy leaves home if Mr. Keay is still on inspections he feels some adjustment must be made since this would leave his wife at home alone while Mr. Keay is on field inspection trips. He mentioned that he may consider selling his home at that time and moving into an apartment. His wife has been employed for sometime with the United States Post Office in Northern Virginia.
Status: Satisfactory.

Mr. Keay has submitted a request for retirement in view of the possibility of his receiving the position of Assistant Security Secretary with NATO. Mr. Keay had not indicated in his communication the date he desired his retirement to become effective. I called Mr. Keay at home on Saturday, July 28, 1956, and he told me there was no hurry and that it possibly could be made effective November 1, 1956. He said he would discuss the matter with his wife over the weekend and let me know this morning the date he desired it to be effective.

I called Mr. Keay this morning and he told me he desired his retirement to become effective August 31, 1956.

As I have telephonically instructed you, a communication should be promptly prepared advising Mr. Keay that his retirement is being made effective August 31, 1956. Mr. Keay has indicated that it will be necessary for him to taken one day of annual leave since his son is being married in southern Maryland, August 18, 1956. It should be borne in mind in computing the annual leave to Mr. Keay's credit prior to the effective date of his retirement.

Mr. Victor P. Keay
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Keay:

Reference is made to your telephonic request of July 30, 1956, to Mr. Mohr concerning your desire to receive details pertaining to your plans to retire effective at the close of business August 31, 1956.

There is enclosed Standard Form 2801, "Application for Retirement," which you should promptly execute and return to the Statistical Section. Upon receipt it will be forwarded to the Civil Service Commission. There is also enclosed form SF-2803, "Application for Service Credit." You may desire to complete the latter form if you decide that you desire a larger monthly retirement annuity. You advised that you had about three years of service with the Post Office Department and that when you left that Department you made application for and received a refund of your retirement deductions. Records of this Bureau reflect that such refund received by you approximated \$180.50. During a portion of your Bureau service and for only a portion of the period when you served on confidential assignment, retirement deductions totaling \$616 were not taken from your salary. You desire to make such optional deposit and the aforementioned \$180.50 refund as the following retirement estimates reveal.

If you desire to make no refund or optional deposit and elect a retirement annuity under Plan A, "Life Annuity," indicated on the enclosed form, you may expect to receive a monthly retirement annuity of approximately \$415. If you elect Plan B, "Reduced Annuity with Benefit to Widow or Widower," you may expect to receive about \$383 monthly.

If you desire to make both the optional deposit and the refund, the "Life Annuity" plan will provide you with approximately \$475 monthly annuity and the "Reduced Annuity with Benefit to Widow or Widower" plan will provide approximately \$405 monthly annuity.

If you decide to make just the optional deposit, the "Life Annuity" plan will provide you with approximately \$418 monthly annuity and the "Reduced Annuity with Benefit to Widow or Widower" plan will provide approximately \$357 monthly annuity.

If you decide not to make the optional deposit but instead elect to make only the \$180.50 refund for those years served with the Post Office Department, your monthly annuity under the "Life Annuity" plan will provide you with approximately \$469 and \$401 under the "Reduced Annuity with Benefit to Widow or Widower" plan.

If you decide to make the optional deposit or the refund or both, complete form SF-2803 and forward it with your "Application for Retirement." (Your retirement will be made effective August 31, 1956, with your annuity to become effective September 1, 1956, upon Civil Service Commission's approval of your application. You may expect to receive your first annuity check approximately October 1, 1956. The above calculations are approximate figures only and final calculations concerning your annuity will be made by the Civil Service Commission.

In order that you will not lose any current accrued annual leave, it will be necessary that you cease active duty at the close of business August 23, 1956. This is based on the assumption that you take no annual leave until the effective date of your retirement excluding August 17, 1956, the date you advised that you will be off duty. You will receive a lump-sum payment for 720 hours of accrued annual leave amounting to approximately \$3600.

You are covered in the amount of \$13,000 under the Federal Employees' Group Life Insurance Act of 1954. In connection with your stated desire July 30, 1956, to continue such coverage following retirement, a copy of form SF-56, "Agency Certification of Insurance Status," marked "duplicate" is enclosed for your personal retention. The "original" of

Mr. Victor P. Keay

this form will be forwarded to the Civil Service Commission when executed forms SF-2801 and SF-2803 are received from you. Your group insurance coverage of \$13,000 will continue at no cost to you following retirement until age 65. Commencing at age 65 your coverage will be reduced at the rate of two per cent per month until it decreases to \$3250 at age 68 years and two months. The latter coverage will continue for the remainder of your life at no premium cost to you.

I trust that the above details will be of assistance to you concerning the processing of the enclosed forms.

Bob Cartwright called and stated that Victor Keay was under consideration for assignment to NATO. Cartwright did not know what was back of the assignment. Before letting the matter go any further, he wanted to check with us to see if it was all right.

I told Cartwright that Keay had advised the Director on Friday of the possibility of getting this job and that he wanted an immediate answer as to whether his application for retirement would be accepted. He was naturally told that, if he desired to retire, this would be agreeable. I told Cartwright that, obviously, we could take no position in this matter other than to state that Keay's record in our service has been otherwise satisfactory and that his application for retirement was being granted.

Dear Mr. Hoover:

VICTOR P. KEAY

I had hoped to talk to you personally regarding retirement and as soon as the following information became available to me I contacted your office and learned that you were away. I greatly regret that I was not able to first give you this information in person and to personally request from you permission to retire.

I have learned that the position of Assistant Security Advisor to the North Atlantic Treaty Organization (NATO) is vacant and will be filled by an American. The Chief Advisor is a British subject, who was the Assistant. He succeeds a Canadian, a member of Royal Canadian Mounted Police, and he is to give up the position of Chief Advisor in two years so that it can be taken over by an American. The salary and allowances amount to \$17,500 per year, tax free, as it is paid out of International funds. The headquarters will be in Paris. I have learned through friends that I can have the position if I plan on retiring from the Bureau. A short while ago I learned that it will be necessary that I indicate my interest and intentions today inasmuch as the British are now maneuvering to also take over the position of Assistant Security Advisor to NATO. As soon as I heard this I contacted your office as I wanted to talk to you about it. I feel that it is an opportunity I cannot overlook, that I owe the duty of taking it to my family because of financial advantages.

I would appreciate your advice as to whether it will be permissible for me to retire, active duty to cease whenever the best interests of the Bureau will be served. I keenly feel a sense of responsibility to you, Mr. Hoover, and I want

to assure you that any decision you make will be willingly accepted. After twenty-two years in the Bureau I cannot help regret leaving it and I want to assure you that whatever I may do and wherever I may be I cannot help but be an FBI Agent at heart. I want to assure you that I will do all in my power to assist the Bureau and if you see fit to grant my request for retirement I want it understood that I will be available for any service of the Bureau.

I, of course, have made it plain that I can make no commitments until I have consulted you. Your oral advice will be sufficient to indicate to me as to whether I should proceed.

I hope very much that I will have an opportunity to talk to you in the near future and give you full details.

Dear Mr. Ruddock:

Enclosed are an Application for Retirement and Application for Service Credit executed by Mr. Victor P. Keay. There are also enclosed an Agency Certification of Insurance Status and a Photostat of his Form 2806.

Mr. Keay, who was 51 years of age on September 24, 1955, has indicated that he desires to retire at the close of business August 31, 1956. He entered on duty with this Bureau as a Special Agent on June 25, 1934. On July 11, 1948, he was designated as an Inspector and is presently serving in that capacity.

He has had varied and extensive experience during his service with this Bureau and has performed duties of a hazardous nature in connection therewith. Our Inspection Staff, among other functions, is charged with the responsibility of supervising the investigation of violations of the laws of the United States and performing other duties imposed by law. Mr. Keay has participated in these duties and his services have been entirely satisfactory. It is felt that he merits favorable action in connection with his request.

In accordance with the action of the Attorney General delegating authority to me to make appropriate recommendations in connection with applications for retirement from employees of the Federal Bureau of Investigation, I hereby recommend that Mr. Keay's retirement under the provisions of Section 1(d) of the Civil Service Retirement Act be approved.

Sincerely yours,

John Edgar Hoover

NARRATIVE COMMENTS

Note: The regulations require that OUTSTANDING ratings be supported by a statement in writing setting forth IN DETAIL the performance IN EVERY ASPECT and the REASONS for considering each worthy of SPECIAL COMMENDATION. UNSATISFACTORY ratings must be supported by a statement in writing stating (1) WHEREIN the performance is unsatisfactory, (2) the facts of the (90 day) PRIOR WARNING, and (3) the efforts made AFTER THE WARNING TO HELP the employee bring his performance up to a satisfactory level.

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
○ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out on the reverse of form FD-185. So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out on the reverse of form FD-185.

On 8-23-56 Mr. Keay ceased active duty and his retirement is to become effective 8-31-56, with his annuity to become effective 9-1-56. This is a brief and concise summary of his record for the Director's use.

A review of his file reflects he entered on duty as a Special Agent on 6-25-34 and completed twenty-two years of service in the Bureau on 6-25-56. He is presently in Grade GS-15, \$12,420 per annum, having been demoted to that grade on 8-28-55 in view of weaknesses in his supervision as Inspector in Charge of the Internal Security-Liaison Branch in the Domestic Intelligence Division. During his designation as Inspector in Charge in the Domestic Intelligence Division he received 7 letters of CENSURE and was PLACED ON PROBATION 2-23-55 for lack of analysis and foresight manifested by him in making changes in investigative reports in which former Confidential Informant Harvey Matusow had furnished information. He was COMMEDED on 1-24-55 for the magnificent job accomplished by him and his associates in the handling of a special project on 1-18 and 1-19-55. On 8-25-55 he reported to the Training and Inspection Division and was assigned to the Inspection and Planning Section. On 2-3-56 he was REMOVED FROM PROBATION.

On 10-11-55 he was CENSURED inasmuch as he lost his FBI badge.

On his 1956 Annual Performance Report Mr. Brown rated him SATISFACTORY and said he was well grounded in Bureau policies and his progress as a Field Inspector was considered satisfactory. His attitude had been excellent and he appeared to be enthusiastic about field inspections.

During an inspection of the Training and Inspection Division in May, 1956, Inspector Trotter advised Mr. Keay had no problems nor suggestions to offer at the time of interview. He liked inspection work but would not prefer it for all of the time in the future. He preferred an assignment at the Seat of Government where he could organize and perform administrative functions. He felt that inspections were good experience one that he would not have wanted to have missed. Mr. Keay is 51 years old, married, and has one son.

Attachment (Permanent Brief)

JAREE
SA

By letter dated 6-25-56 the Director congratulated him on his Twenty-Second Anniversary with the FBI.

On 7-18-56 the Director received an invitation to attend the wedding of Mr. Keay's son, Victor P. Keay, Jr. on 8-18-56. This was acknowledged on 7-20-56.

By letter dated 7-27-56 he advised the Director of his wish to retire inasmuch as he was interested in the position of Assistant Security Advisor to the North Atlantic Treaty Organization (NATO) which was vacant. The headquarters will be in Paris and the salary and allowances amount to \$17,500 per year, tax free, as it is paid out of International funds. He had learned through friends that he could have the position on retiring from the Bureau. He felt that it was an opportunity he could not overlook and that he owed the duty of taking it to his family because of financial advantages.

By letter dated 7-27-56 the Director advised Mr. Keay that Miss Gandy had furnished him with the contents of Keay's letter dated 7-27-56. The Director stated he was sorry to learn of Keay's contemplated plans to retire but was happy to receive the news of the fine offer which had been made to Keay. He was advised as Miss Gandy had told him, any decision he might make with respect to retiring and accepting the position in question was, entirely up to him, and it would be perfectly satisfactory with the Director.

On 7-30-56 he advised Mr. Mohr that he desired his retirement to become effective August 31, 1956.

By memorandum dated 7-31-56 Mr. Nichols advised that Bob Cartwright called and stated that Mr. Keay was under consideration for assignment to NATO. Cartwright did not know what was back of the assignment but before letting the matter go any further, he wanted to check with the Bureau to see if it was all right. Mr. Nichols advised Cartwright that the Bureau could take no position in this matter other than to state that Keay's record in the Bureau had been otherwise satisfactory and that his application for retirement was being granted.

His daily overtime average for the past six months is as follows: February, 2 hours 50 minutes; March, 4 hours 36 minutes; April, 5 hours; May, 2 hours 28 minutes; June, 2 hours 32 minutes and July, 3 hours 19 minutes.

He lists Washington, D. C. as his office of preference since February, 1956.

On September 4, 1956, Mr. S. Reynolds pointed out that he was aware that Mr. Keay was being considered for a position with NATO, and explained that NSA intended to utilize his services until he received a position with NATO. Reynolds also advised that it was his understanding that the British are sponsoring a Frenchman for the position for which Mr. Keay is being considered in NATO.

Reynolds requested that he be furnished a service write-up concerning Mr. Keay due to the fact that he would be utilized as a consultant by NSA.

RECOMMENDATION:

That the Administrative Division prepare a service write-up for Liaison to furnish Mr. Reynolds.

Vic Keay

Inspector Vic Keay stopped by my office on August 23 and, in the absence of the Director from Washington, made known his request for an autographed photograph of the Director. Keay stated that he had never had one and now that he has retired from the Bureau he would sincerely appreciate having a photograph of the Director autographed to him.

Keay also asked that he be placed on the Bureau mailing list to receive items of interest from the Bureau so he can keep apprised of our activities and, if at all possible and consistent with policy, he would like to continue receiving the Investigator. Keay was advised that we would be very glad to call these items to the Director's attention; and it was suggested to him that, as soon as he ascertains his new address upon assuming a position with NATO, he advise the Bureau in order that our mailing list may be correct. In the interim Keay will receive mail at his current home address in Arlington.

The Crime Records Section will place Keay on the mailing list and see that he receives the Investigator monthly and will prepare a letter for the Director's signature transmitting an autographed photograph to Keay for the Director to send on his return to the city.

Dear Sir:

When I checked in my Bureau property on my recent retirement I did not turn in my master key.. I had removed it from my key chain the previous night at home preparatory to turning it in. I have made a meticulous search at home but have been unable to locate the key and therefore must conclude it is lost. It seems certain that it was thrown out with the trash and has been destroyed.

To say that I am extremely embarrassed is an understatement. I exceedingly regret that such should happen at a time like this. Please accept my apologies and earnest request that I be forgiven a lapse of the desirable care of such property.

Sincerely,

RE: MR. VICTOR PERL KEAY

Mr. Keay entered on duty in the Federal Bureau of Investigation on June 25, 1934, as a Special Agent, Grade CAF 8, \$2900 per annum. Following a period of training he performed investigative duties in various offices of this Bureau and he served in a confidential capacity outside the continental limits of the United States and in a supervisory capacity at the Seat of Government. Mr. Keay received the following position changes:

Special Agent	CAF 9	\$3200	7-1-36

"	GS 16	\$12,900	3-13-55
"	GS 15	\$12,150	8-28-55

The demotion to Grade CAF 11 resulted from his loss of Bureau property and the demotion to Grade GS 15 resulted from his assignment to other duties. Mr. Keay retired effective at the close of business August 31, 1956, at which time he was receiving salary of \$12,420 per annum in Grade GS 15. His services were satisfactory and nothing of a derogatory nature was known concerning his character or integrity during the period in which he was an employee of this Bureau.

GENERAL INFORMATION

SERVICE FOR WHICH PAYMENT IS OPTIONAL FOR FULL RETIREMENT CREDIT

(A) In order for the employee to receive full retirement credit for civilian service since August 1, 1920, if deductions were not withheld from earnings, it will be necessary that retirement deductions, plus interest, be paid to the retirement fund.

(B) The amount due for civilian service during which deductions were not withheld from earnings will be computed at the rate of 2 1/2 percent of salary earned for service rendered from August 1, 1920, to June 30, 1926; 3 1/2 percent from July 1, 1926, to June 30, 1942; 5 percent from July 1, 1942, to end of the pay period prior to the first pay period which begins after June 30, 1948; and 6 percent thereafter, plus interest at the rate of 4 percent compounded annually to December 31, 1947, and 3 percent compounded annually thereafter during all periods of creditable service.

(C) If the payment is not made to the retirement fund, credit is allowed for the service but the annuity otherwise payable will be reduced by 10 percent of the amount of retirement deductions with interest due at retirement.

SERVICE FOR WHICH PAYMENT IS REQUIRED FOR RETIREMENT CREDIT

(A) Before credit may be allowed for any period or periods of employment for which a refund of retirement deductions has previously been paid, it will be necessary that the employee make a repayment to the retirement fund.

(B) The amount due for repayment of any sum previously refunded will be the amount paid to the employee plus interest during subsequent employment at the rate of 4 percent compounded annually to December 31, 1947, and 3 percent compounded annually thereafter.

METHOD OF MAKING PAYMENT

Payment may be made by the employee either in a lump sum or installment payment. Where the installment method is selected by the employee, a deposit book will be furnished for the purpose of identifying each remittance forwarded to the United States Civil Service Commission.

The amount of installment payments shall not be less than \$10 each month. Do not send any remittance with the application. When the application for service credit is approved, instructions will be issued by the United States Civil Service Commission as to the amount to be deposited and the procedure to be followed.

Name Check Section, Investigative Division, has received request from the Office of the Secretary of Defense (OSD) 10/18/56 for service record summary on former Inspector Keay. The latter is being considered as Security Advisor for North Atlantic Treaty Organization (NATO) for an assignment in Paris, France. OSD needs this write-up since it has to clear some of the NATO positions.

You will recall that Liaison Section recently received request from Walter Jessop for Keay's service record desired by the NATO Security Bureau. It was furnished under date of 10/10/56. It contained the comment that Keay's services were satisfactory and that nothing derogatory was known concerning his character or integrity, which comment, of course, was commensurate with Keay's record during his 22 years of Bureau service.

RECOMMENDATION:

That attached service record summary memorandum be approved and be routed to SA L. N. Conroy, Name Check Section, Investigative Division, for referral to OSD.

RE: MR. VICTOR PERL KEAY

Mr. Keay entered on duty in the Federal Bureau of Investigation on June 25, 1934, as a Special Agent, Grade CAF 8, \$2900 per annum. Following a period of training he performed investigative duties in various offices of this Bureau and he served in a confidential capacity outside the continental limits of the United States and in a supervisory capacity at the Seat of Government. Mr. Keay received the following position changes:

Special Agent	CAF 9	\$3200	7-1-36
"	CAF 10	\$3500	7-1-37
"	CAF 11	\$3800	6-1-39
"	CAF 12	\$4400	4-16-41
"	CAF 11	\$4400	8-1-41
"	CAF 12	\$4600	12-1-41
"	CAF 13	\$6230	7-16-45
Inspector	CAF 14	\$8179.50	7-11-48
"	GS 15	10,800	7-20-52
"	GS 16	12,000	8-15-54
"	GS 116	12,900	3-13-55
"	GS 15	12,150	8-28-55

The demotion to Grade CAF 11 resulted from his loss of Bureau property and the demotion to Grade GS 15 resulted from his assignment to other duties. Mr. Keay retired effective at the close of business August 31, 1956, at which time he was receiving salary of \$12,420 per annum in Grade GS 15. His services were satisfactory and nothing of a derogatory nature was known concerning his character or integrity during the period in which he was an employee of this Bureau.

The following is a brief, concise summary of Mr. Keay's record for the Director's use.

A review of his personnel file reflects he entered on duty as a Special Agent on 6-25-34 and completed twenty-two years of service in the Bureau on 6-25-56. At the time of his retirement he was in Grade GS-15, \$12,420 per annum, having been demoted to that grade on 8-28-55 in view of weaknesses in his supervision as Inspector in Charge of the Internal Security-Liaison Branch in the Domestic Intelligence Division. During his designation as Inspector in Charge in the Domestic Intelligence Division he received 7 letters of CENSURE and was PLACED ON PROBATION 2-23-55 for lack of analysis and foresight manifested by him in making changes in investigative reports in which former Confidential Informant Harvey Matusow had furnished information. He was COMMENDED on 1-24-55 for the magnificent job accomplished by him and his associates in the handling of a special project on 1-18 and 1-19-55. On 8-25-55 he reported to the Training and Inspection Division and was assigned to the Inspection and Planning Section. On 2-3-56 he was REMOVED FROM PROBATION.

On 10-11-55 he was CENSURED inasmuch as he lost his FBI badge.

By letter dated 7-27-56 he advised the Director of his wish to retire inasmuch as he was interested in the position of Assistant Security Advisor to the North Atlantic Treaty Organization (NATO) which was vacant. The headquarters would be in Paris and the salary and allowances amounted to \$17,500 per year, tax free, as it was paid out of International funds. He had learned through friends that he could have the position on retiring from the Bureau. He felt that it was an opportunity he could not overlook and that he owed the duty of taking it to his family because of financial advantages.

RECORDED - 137

100-36842-314

By letter dated 7-27-56 the Director advised Mr. Keay that Miss Gandy had furnished him with the contents of Keay's letter dated 7-27-56. The Director stated he was sorry to learn of Keay's contemplated plans to retire but was happy to receive the news of the fine offer which had been made to Keay. Keay was advised, as Miss Gandy had told him, any decision he might make with respect to retiring and accepting the position in question was entirely up to him, and it would be perfectly satisfactory with the Director.

ENCLOSURE (Permanent Brief)

(By memorandum dated 7-31-56 Mr. Nichols advised that Bob Cartwright called and stated that Mr. Keay was under consideration for assignment to NATO. Cartwright did not know what was back of the assignment but before letting the matter go any further, he wanted to check with the Bureau to see if it was all right. Mr. Nichols advised Cartwright that the Bureau could take no position in this matter other than to state that Keay's record in the Bureau had been otherwise satisfactory and that his application for retirement was being granted.

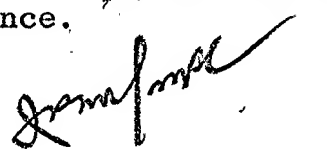

By letter dated 8-30-56 Mr. Keay advised that when he checked in his Bureau property on his recent retirement, he did not turn in his master key. He had removed it from his key chain the previous night at home preparatory to turning it in. He had made a meticulous search at home but had been unable to locate the key, and therefore must conclude it was lost. It seemed certain that it was thrown out with the trash and had been destroyed. He expressed apologies and earnest request that he be forgiven a lapse of the desirable care of such property. No reply was made and no further action was taken.

Memorandum dated 10-5-56 reflected Mr. Walter Jessup of State called and requested a personnel write-up regarding Mr. Keay. This was in connection with a clearance for employment in the NATO Security Bureau. Mr. Keay expected to leave the U. S. about 11-15-56 for Paris. Mr. Keay's service record was furnished on 10-10-56.

On 10-31-56 Mr. Holloman advised that Mr. Keay called to advise that he was departing 11-1-56 for Paris, France, where he would be until December temporarily in connection with his work with NATO as Executive Secretary of the Special Committee. He would return to the United States in December, 1956. Mr. Keay stated he would like to come down 10-31-56 or 11-1-56, if possible, to pay his respects to the Director, advise the Director of his new duties, and to offer to be of any assistance possible to the Bureau. He stated that if the Director could not see him at this time, he would like to see the Director in December when he returned. In view of the lateness of his request to see the Director, it was recommended Mr. Keay be advised the Director's schedule would not permit him to see Mr. Keay at this time and that Mr. Keay contact this office upon his return in December and if the Director's schedule was such at that time, the Director would see him in December. The Director noted, "I am unable to see him. H." Mr. Keay was so advised.

It is noted Mr. Keay requested and received an autographed photograph of the Director soon after his retirement, and his name has been placed on the Bureau mailing list.

As of 8-31-56, Washington, D. C., was listed as his office of preference.

(Former Inspector Keay, who is now Security Officer for NATO, leaves for Paris on his assignment this coming Friday, 1/11/57, by boat from New York. This is a two-year assignment which will put Keay in a very strategic position insofar as knowledge of intelligence activities is concerned among the NATO nations.)

Keay has expressed to me a continuing deep loyalty to the Bureau and a desire to be of assistance to the Bureau in connection with his present assignment. We have not only an interest in certain phases of NATO work (exemplified by the fact that we represent the US through supervisor Norman Philcox at periodic NATO security meetings in Paris), but also a definite interest in well-placed contacts within the intelligence community in Europe. This latter is particularly important now because of the anti-American sentiment in France and the resultant need for our Legal Attache in Paris to have all possible good contacts. Keay has advised me that he feels information of value to the Bureau will be coming to his attention and he would like to furnish it to the Legal Attache. I told him by all means to do this.

(Mr. Keay would very much like to see the Director before he leaves, merely to pay his respects and express his desire to be of assistance.) I believe it would be desirable for the Director to see Mr. Keay if the Director's schedule permits. Keay is going to NY Thursday, 1/10, but will be available to come in to see the Director any time today, Tuesday or Wednesday (1/7, 8 or 9).

If the Director will be able to see Keay, I will so advise him in accordance with the Director's wishes.

Dear Mr. Hoover:

Since I am now settled down in the Security Bureau of NATO I should like to request that the Bureau records be changed to reflect my current address as A.P.O. #230, The American Embassy, New York, N. Y. I would greatly appreciate the continued receipt of material regarding the Bureau's activities which you so kindly mailed to me in the past. I have a keen interest in following such activities and of being of help to the Bureau whenever possible.

I hope that you will call upon me when I can be of any assistance to you and the Bureau. I like to feel that eventhough I am retired I have not severed all ties with the Bureau and that I will be able to help it in the future.

Unless you object Mr. Hoover, I will furnish any material of interest to the Legal Attache for transmittal to you.

Diagnosis

Referred to

Exact examination desired

X-ray department

X-ray examination of the lungfields, lumbo-sacral spine.

Dr. Parker

(M. C.) U. S. N.

REPORT

Chest examination showed that the lung fields are clear, the diaphragms are smooth and domed and the costophrenic angles are clear. There is some increase of bilateral lung root density. The heart and great blood vessel shadows are within normal limits. There is a mild left dorsal scoliosis centered about the 3rd DV.

Examination of the lumbo-sacral spine and pelvis show no diagnostic bone or joint changes by X-ray, except for a questionable narrowing of the interspace between the 12th dorsal and 1st lumbar vertebra. However, there are no bony abnormalities seen.

Mr. J. Edgar Hoover,
Director,
Federal Bureau of Investigation,
Washington D.C.

Dear Mr. Hoover,

[redacted] Security Bureau,
North Atlantic Treaty Organisation (NATO), will be in
Washington from June 8 to June 15, 1957, in connection with
NATO business. He desires to make a courtesy call at the
Bureau and to see some of its facilities while he is in
Washington. This is his first trip to the United States.

[redacted] and will return to that organization at the
conclusion of his tour of duty with NATO in about two years.
I have found he is a very capable individual in security
work and he will undoubtedly receive an important position.
when he returns to his own organization.

I have found [redacted] very friendly disposed
towards the Bureau and an admirer of its methods. He is
well known to the Legal Attaché in Paris and London, and to
S.A. Philcox at the Bureau.

The above background on [redacted] is furnished
as of possible interest to you since he expects to visit
the Bureau headquarters.

Sincerely yours,

Former Bureau Inspector V. P. Keay, now employed by NATO in Paris, advised in a personal letter to Philcor that Commissioner Kennedy plans to go to the American Bar Association meeting at London and will possibly visit Paris and Rome following the meeting. [redacted] of the NATO Security Bureau, who visited the Bureau during June, 1957, met Kennedy while in New York City, at which time Kennedy requested that [redacted] introduce him to the proper people in Paris. Since [redacted] will be on vacation, he has given Kennedy Keay's name and has requested Keay to take care of Kennedy in Paris. Keay has inquired regarding Kennedy's standing with the Bureau and if the Bureau is taking care of Kennedy in Europe since Keay, of course, does not wish to interfere with anything which the Bureau may be doing.

That is an understatement!

Kennedy is a National Academy graduate but the Bureau was not altogether pleased with his handling of the [redacted] case. Mr. Nichols confirmed that Kennedy is going to the American Bar Association meeting in London. Kennedy has not requested any assistance from the Bureau in connection with his European trip. It is believed that we should advise our Legal Attaches in London, Paris, and Rome that if they are contacted by Kennedy they should treat him courteously but should not render any unusual services. It is also believed that we should instruct the Legal Attache, Paris to advise former Inspector Keay that it is entirely up to him as to how far he goes in taking care of Kennedy but insofar as the Bureau is concerned it would not be necessary for him to extend any unusual courtesies.

RECOMMENDATION:

There is attached for your approval a letter to the Legal Attache, Paris with copies for London, Rome, and New York City.

The following is a brief, concise summary of Mr. Keay's file for the Director's use.

A review of his personnel file reflects he entered on duty as a Special Agent on 6-25-34 and completed twenty-two years of service in the Bureau on 6-25-56. At the time of his retirement he was in Grade GS-15, \$12,420 per annum, having been demoted to that grade from Grade GS-16, on 8-28-55 in view of weaknesses in his supervision as Inspector in Charge of the Internal Security-Liaison Branch in the Domestic Intelligence Division. During his designation as Inspector in Charge in the Domestic Intelligence Division he received 7 letters of CENSURE and was PLACED ON PROBATION 2-23-55 for lack of analysis and foresight manifested by him in making changes in investigative reports in which former Confidential Informant Harvey Matusow had furnished information. He was COMMENDED on 1-24-55 for the magnificent job accomplished by him and his associates in the handling of a special project on 1-18-55 and 1-19-55. On 8-25-55 he reported to the Training and Inspection Division and was assigned to the Inspection and Planning Section. On 2-3-56 he was REMOVED FROM PROBATION. On 10-11-55 he was CENSURED inasmuch as he lost his FBI badge.

By letter dated 7-27-56 he advised the Director of his wish to retire inasmuch as he was interested in the position of Assistant Security Advisor to the North Atlantic Treaty Organization (NATO) which was vacant. The headquarters would be in Paris and the salary and allowances amounted to \$17,500 per year, tax free, as it was paid out of International funds. He felt that it was an opportunity he could not overlook and that he owed the duty of taking it to his family because of financial advantages.

RECORDED - 134

By letter dated 7-27-56 the Director advised Mr. Keay that Miss Gandy had furnished him with the contents of Keay's letter dated 7-27-56. The Director stated he was sorry to learn of Keay's contemplated plans to retire but was happy to receive the news of the fine offer which had been made to Keay. Keay was advised, as Miss Gandy had told him, any decision he might make with respect to retiring and accepting the position in question was entirely up to him, and it would be perfectly satisfactory with the Director.

On 12-27-56 he entered on duty with the State Department as Security Officer in Grade FSR-2, \$12,900 per annum less annuity.

On 1-7-57 Mr. Belmont advised Former Inspector Keay, Security

Officer for NATO, was leaving for Paris on his assignment 1-11-57, by boat from New York. This was a two-year assignment which would put Keay in a very strategic position insofar as knowledge of intelligence activities was concerned among the NATO nations. Mr. Keay would have liked to see the Director before he left, merely to pay his respects and express his desire to be of assistance. The Director noted, "I will be unable to see him."

X In the July, 1958, Membership Directory, Society of Former Special Agents of the FBI he was listed as a member, associated with the Security Bureau, North Atlantic Treaty Organization, and residing in Paris, France.

Pursuant to a request from the Director's Office, there is set forth information concerning the purpose of Mr. Victor P. Keay's (former Bureau Inspector) present visit to Washington, D. C., in connection with a meeting of the North Atlantic Treaty Organization Foreign Ministers. It is not known whether Mr. Keay has any specific matters to discuss with the Director, but it is believed that he merely desires to make a courtesy call.

Mr. Keay is presently attached to the Security Bureau of the North Atlantic Treaty Organization (NATO) located in Paris, France. The Security Bureau of NATO handles all matters pertaining to various phases of security at NATO Headquarters and certain document registries in various NATO countries (Department of Defense is the NATO Document Registry in US). The Security Bureau is headed by _____

A French representative is second in command and Mr. Keay, the American representative (on State Department payroll) is considered to be #3 man. Keay is in the US on official home leave and on official business. He was first scheduled to come to the States on leave and when the NATO Foreign Ministers Conference was called for 4/2, 4/3, and 4/4/59, it was the Security Bureau's feeling that he should be present to help with matters pertaining to security at the conference. Mr. Keay and a _____ will be the NATO representatives handling security for the forthcoming conference.

The NATO Foreign Ministers annual conferences normally rotate and are held in the capitals of the various NATO countries. Since this is the tenth anniversary of the signing of the NATO pact, Washington was selected for the current meeting as the original pact was signed in Washington and US was due to serve as host under the rotation system. As you know, the conference is scheduled to be held in the Interdepartmental Auditorium, with office space being provided by the Department of Labor in the adjoining building. It is Keay's and _____ job to check out all security matters, both as they relate to office space and control of official documents. It is expected that there will be approximately 200 foreign persons at the conference from the 14 other NATO countries. It is anticipated that President Eisenhower will at some point address the group.

The FBI's only official connection with NATO is with reference to the NATO Special Committee. This Committee was organized in 1953,

Re: Request of Victor P. Keay (former Bureau Inspector) to See Director

and is composed of the internal security agencies from the 15 NATO countries. Its purpose is to exchange security information and national views on matters of mutual interest in the security field. We have represented the US on this Committee at the request of the State Department since its inception. The US Group is composed of the FBI as US delegate, State Department as technical conference advisor, and Central Intelligence Agency as an observer. The Committee meets semi-annually at NATO Headquarters in Paris, France. This Committee has had a very successful existence. Considerable internal security and espionage information has been exchanged among the NATO members, and the FBI has been active in its participation. According to the State Department, the Bureau has been a shining example in this highly specialized security committee. The FBI has benefited from its participation in this committee not only from the information exchanged, but from the direct liaison channels that have been opened up with the various NATO countries, some in which we have Legal Attaches and some in which we do not have representation. The next NATO Special Committee Conference is scheduled to be held during the third week in May, 1959, and we are now starting to prepare material under the permanent agenda. The secretariat for the committee is supplied by the NATO Security Bureau, which is headed by [redacted] [redacted] previously mentioned. Mr. Keay, who serves under [redacted] has done some work on the secretariat and has been most helpful and cooperative to the Bureau's representative on the committee. There follows a listing of the NATO countries: (1) Belgium; (2) Canada; (3) Denmark; (4) France; (5) Germany; (6) Greece; (7) Iceland; (8) Italy; (9) Luxembourg; (10) Netherlands; (11) Norway; (12) Portugal; (13) Turkey; (14) United Kingdom; and (15) United States.

I want to advise you of the extreme interest with which the booklet "Exposé of Soviet Espionage, May 1960" was received here at NATO. I think a magnificent job was done by the Bureau and that this report will continue to serve as a tremendous aid to the defence of the interests of the Western Nations.

I would like to congratulate you and your associates for a task well done. It makes me indeed proud to have once been a member of the organisation.

Dear General Fagg,

I should like to say that the April issue of the magazine "Industrial Security" was excellent. In particular I would like to compliment you and the author on the article "An Analysis of Executive Order No. 10865". This was a very timely and well thought out analysis.

I should like to point out, however, that the advertisement on page 33 by the Criminal Research Production Inc. causes some concern. This advertisement is for a "Black Criminology Kit" and among the uses for the kit advertised is the detection of espionage. As you know, of course, the detection and investigation of espionage is exclusively a governmental function and it would seem that such advertisements could serve no good purpose and in fact might encourage persons to attempt espionage investigations who have no right to do so. It doesn't seem to me that the general tenor of this advertisement is in keeping with the customary high quality of the magazine.

Sincerely yours,

Victor P. Keay

Dear Mr. Keay:

It was very thoughtful of you to write to me under date of July 19, 1960, relative to our booklet, "Expose of Soviet Espionage, May 1960." It is heartening to know that this report will be of assistance abroad as well as here at home.

Frankly, it was our purpose to launch a counteroffensive against the Soviet propaganda directed against this country, and to expose the fraudulent nature of the "holier than thou" statements by Khrushchev and his associates. It is unfortunate that it was not possible to bring these facts to light at the time of or immediately following the Summit Conference.

Your letter is greatly appreciated and I do hope that the booklet will be of assistance to you in your work.

Sincerely yours,

J. Edgar Hoover

*NORTH ATLANTIC TREATY
ORGANIZATION (NATO) SPECIAL COMMITTEE*

On December 3, 1952, the North Atlantic Council approved the establishment of the North Atlantic Treaty Organization (NATO) Special Committee to serve as a forum for the exchange of information between member governments on experiences in their efforts to counteract subversive activities, and to discuss and exchange information on ways and means of counter-acting and uncovering such activities.

Assistant Secretary George W. Perkins of the State Department on January 21, 1953, requested the Director of the Federal Bureau of Investigation to designate a representative of this Bureau to provide U.S. representation on the Special Committee and such technical information and guidance as the United States might wish to furnish in connection with the Committee's work.

The first session of the Special Committee convened on March 23, 1953, at Paris, France. Since that date there have been regular meetings of this Special Committee every six months. The sixteenth session took place at Paris on November 9-10, 1960. At all of these meetings the U.S. was represented by an official of the FBI from Washington, D. C., and the Legal Attache from the U.S. Embassy, Paris. An observer from the Central Intelligence Agency (CIA) has also attended these meetings.

The fifteen NATO nations (Belgium, Canada, Denmark, France, Germany, Greece, Iceland, Italy, Luxembourg, Netherlands, Norway, Portugal, Turkey, United Kingdom and the United States) have been represented on the NATO Special Committee by a high official of the intelligence service of each country participating. For the past two years, no representative from Iceland has attended the NATO Special Committee meetings.

67-3061 328

*NORTH ATLANTIC TREATY
ORGANIZATION (NATO) SPECIAL COMMITTEE*

Throughout the years, the Bureau has derived considerable intelligence information as a result of its participation and representation on this Committee. The Bureau's role as the U.S. representative to the NATO Special Committee places the FBI in a position of prestige and enhances its work in the field of international police cooperation. As a result of our membership in this committee, it has been possible for the Bureau to develop contacts in numerous foreign countries and to elevate the FBI's stature among foreign police and intelligence services.

The Bureau has agreed to act as Chairman of the NATO Special Committee during 1961.

This is to advise that [redacted] of the U. S. Delegation to NATO called me on 3/1/61. He confidentially advised that [redacted], who has been [redacted] NATO Security Bureau for the past several years, will be reassigned by the British government about the end of 1961. According to [redacted] will probably return to [redacted] where he will receive a rather important assignment, but the nature of this assignment is not known as yet. [redacted] requested that this not be discussed outside of the Bureau, since at the present time it is known only to [redacted] to Lord COLERIDGE, the Assistant Secretary General of NATO, and to certain members of the American Delegation.

[redacted] stated that this, of course, raises the question as to a replacement for [redacted]. He stated that Colonel SIDNEY RUBENSTEIN, of the U. S. Delegation to NATO, has suggested that VICTOR P. KEAY, former Bureau Inspector and now Assistant Chief of the NATO Security Bureau, be considered as [redacted] replacement. [redacted] stated that he is forwarding a letter to the State Department recommending that the U. S. Delegation request serious consideration for KEAY to replace [redacted] as Chief of the Security Bureau.

This is furnished for the information of the Bureau in the event any inquiries are received by the Bureau from the State Department.

The following is a brief summary of Mr. Keay's record for the Director's use.

A review of his personnel file reflects he entered on duty as a Special Agent on 6-25-34 and completed twenty-two years of service in the Bureau on 6-25-56. At the time of his retirement he was in Grade GS-15, \$12,420 per annum, having been demoted to that grade from Grade GS-16, on 8-28-55 in view of weaknesses in his supervision as Inspector in Charge of the Internal Security-Liaison Branch in the Domestic Intelligence Division. During his designation as Inspector in Charge in the Domestic Intelligence Division he received 7 letters of Censure and was Placed on Probation 2-23-55 for lack of analysis and foresight manifested by him in making changes in investigative reports in which former Confidential Informant Harvey Matusow had furnished information. He was Commended on 1-24-55 for the magnificent job accomplished by him and his associates in the handling of a special project on 1-18-55 and 1-19-55. On 8-25-55 he reported to the Training and Inspection Division and was assigned to the Inspection and Planning Section. On 2-3-56 he was Removed from Probation. On 10-11-55 he was Censured inasmuch as he lost his FBI badge.

By letter dated 7-27-56 he advised the Director of his wish to retire inasmuch as he was interested in the position of Assistant Security Advisor to the North Atlantic Treaty Organization (NATO) which was vacant. The headquarters would be in Paris and the salary and allowances amounted to \$17,500 per year, tax free, as it was paid out of International funds. He felt that it was an opportunity he could not overlook and that he owed the duty of taking it to his family because of financial advantages.

By letter dated 7-27-56 the Director advised Mr. Keay that Miss Gandy had furnished him with the contents of Keay's letter dated 7-27-56. The Director stated he was sorry to learn of Keay's contemplated plans to retire but was happy to receive the news of the fine offer which had been made to Keay. Keay was advised, as Miss Gandy had told him, any decision he might make with respect to retiring and accepting the position in question was entirely up to him, and it would be perfectly satisfactory with the Director.

On 12-27-56 he entered on duty with the State Department as Security Officer in Grade FSR-2, \$12,900 per annum less annuity.

On 1-7-57 Mr. Belmont advised Former Inspector Keay, Security Officer for NATO, was leaving for Paris on his assignment 1-11-57, by boat from New York. This was a two-year assignment which would put Keay in a very strategic position insofar as knowledge of intelligence activities was concerned among the NATO nations. Mr. Keay would have liked to see the Director before he left, merely to pay his respects and express his desire to be of assistance. The Director noted, "I will be unable to see him."

On 3-19-59 the Director saw him and noted that Mr. Keay spoke quite favorably of our Legal Attache's Office in Paris and indicated a desire to cooperate fully with the Bureau.

By letter dated 7-27-60 appreciation was expressed to him for his thoughtful letter of 7-19-60, to the Director, relative to our booklet, "Expose of Soviet Espionage, May 1960."

In the July, 1959, Membership Directory, Society of Former Special Agents of the FBI he was listed as a member, associated with the Security Bureau, North Atlantic Treaty Organization, and residing in Paris, France.

The Editor,
New York Herald Tribune,
21, rue de Berri,
Paris, France

Dear Sir:

I must protest the shockingly intemperate attack on J. Edgar Hoover and the FBI contained in the column of John Crosby published in your newspaper on October 5, 1961. I feel that carrying such a distorted and slanted column in the Paris edition the Herald Tribune has done a disservice to the cause of the United States abroad.

Surely Mr. Crosby doesn't mean to say that it is wrong for a public official to ask the assistance of the public in combating crime, to sponsor programs to protect our children or to endeavor to assist in controlling teenage delinquency.

Mr. Crosby well knows that the FBI's authority and responsibilities in investigating crimes is limited but in his column he infers that Mr. Hoover has authority in the entire field of criminal activity.

The primary and basic responsibility for combating crime lies with the States and Communities. The Constitution does not provide for any general criminal jurisdiction on the part of the Federal Government, therefore, federal law enforcement agencies are confined to enforcing federal laws. Even in federal law enforcement the FBI has no authority in many important fields, for example counterfeiting, narcotics control and enforcement of tax laws. These are the responsibility of Treasury Agencies.

Mr. Crosby is entitled to his opinion on a national police force but isn't Mr. Hoover a bit more expert on this subject?

Mr. Crosby failed to take into account the many measures instituted by Mr. Hoover to combat nationwide crime in spite of his limited authority in the field of law enforcement. Some of these are the FBI Academy which has already trained some five thousand local law enforcement officers and the FBI laboratory which furnishes its services to local authorities free of charge and which has become of world renown under Mr. Hoover's direction.

Mr. Hoover's greatest contribution to combating crime (and one for which Mr. Crosby gives him no credit) has been his unending campaign to raise the standards of law enforcement officers in both personal integrity and professional competence. Surely he deserves full support in this endeavor.

Very truly yours,

Victor P. Keay

Letters From the Mailbag

Mr. Hoover Replies to Mr. Crosby

Degrading

To the New York Herald Tribune:
The column entitled "The FBI Commercial," by John Crosby (Oct. 5), has come to my attention.

The expression of the author's animosity for me personally is rather new and alarming. I am surprised, however, that he has succeeded in using your columns as a forum to attack the FBI and to impugn the efforts of the employees of the FBI who, day by day, loyally

Mr. Hoover and devotedly serve their country.

Appalling in its invective, this column is degrading to the code of the journalistic profession in its utter disregard for facts. Either through lack of knowledge or with an ulterior purpose in mind, Mr. Crosby falsely attributes to the FBI blanket jurisdiction in each and every facet of crime, including narcotics and all phases of organized crime. The jurisdiction of the FBI is specifically defined and established through Presidential decree or Congressional enactment and does not include the all-inclusive authority inaccurately assigned in this article.

I feel you will agree that the record of the FBI is known to the American public and speaks for itself. During the fiscal year ending June 30, 1961, the FBI continued its co-operation with local law enforcement in the offensive against organized crime. In this respect, the FBI supplied to other law-enforcement agencies no less than 101,210 items regarding criminal matters of interest.

Fundamentally crime is a local problem and the fight against crime can only be won by mutual co-operation of law enforcement on all levels—Federal, state and local—with the wholehearted support of the citizens of this country. The illusory panacea of a national police force as the solution to crime is alien to our form of government and contrary to the experience as well as expressed judgment of the leading authorities of local law enforcement in this nation.

I have always held the stature and public service of the newspaper profession in the highest esteem. Accordingly, I am affording you my views on this misleading and erroneous item which appeared in your newspaper.

J. EDGAR HOOVER.

Re Paris cable 10-5-61.

Enclosed is the column of JOHN CROSBY captioned "The FBI Commercial" which appeared in the European edition of the "New York Herald Tribune," Paris, France, 10-5-61.

As indicated in Paris cable, it was ascertained that it had appeared in the "New York Herald Tribune" and other U. S. newspapers approximately two days before.

I attended a luncheon of the American Club in Paris on 10-5-61 and the reaction from most Americans whom I saw there was one of indignation. Former Bureau Inspector VICTOR P. We will be alert for reactions to this article in Paris and we will watch for any letters to the editor which may appear in the European edition in the future regarding this and pertinent information will be furnished to the Bureau.

John Crosby

The FBI Commercial

NEW YORK.—I was listening to the radio the other day and I heard a commercial from Federal Bureau of Investigation Director J. Edgar Hoover which went: "The onslaught of crime is today at an all-time high. Law enforcement is everybody's business."

"The ever-increasing surge of crime costs the American taxpayer \$22 billion a year. You are one of the taxpayers sharing this cost. The front line of defense in this matter is your local police officer, but he needs the supporting element of you, the citizen, to continue to do his job."

"Get interested in law enforcement. Support good government. Expect and demand efficient law enforcement and do your part to get it."

Get interested in law enforcement? Mr. Hoover, I am interested in law enforcement. I know that the onslaught of crime is at an all-time high. In fact, crime in this country has made its most substantial gains in the 36 years you have been head of the FBI.

Big Business

Under your benevolent eye, the crime syndicates are now rolling in wealth and respectability. Gambling, narcotics and industrial rackets are now among the biggest businesses in this country, and hoodlum money is now infiltrating all sorts of respectable businesses.

Get interested in law enforcement! I am, indeed. But when are you going to get interested in law enforcement, Mr. Hoover?

Ours is the only country in the world with organized crime on such a huge scale, and we are one of the few countries without a national police force.

Mr. Crosby

Every time someone suggests a national police force for this country, you shoot it down, and so well organized is your press relations and so docile is the press at accepting your word on police matters that all attempts to grapple with organized crime on a national level have been successfully throttled.

I wonder if the FBI wants the job, or wants no one else to have it, for fear of dimming its glory.

"I was seriously concerned with organized crime before I took office," said Attorney General Robert F. Kennedy last April. "In the past two and a half months, I have become even more aware of how far racketeering has infiltrated our society."

"Racketeers have moved in from illegal enterprises to infect legitimate business, labor unions and—as the newspapers noted again recently—sports. At the same time, the

racketeers have tightened their hold on bookmaking, narcotics, extortion, prostitution, the numbers game and other gambling."

Meanwhile, what were you up to, Mr. Hoover? A perusal of newspaper reports shows that you issued a stirring warning to housewives to be careful of babysitters.

You also called for a relentless campaign against child molesters. I also have here your coloring cartoon ("Boys and girls—Color the picture and memorize the rules. Turn down gifts from strangers. Avoid dark and lonely streets. Know your local policeman. J. Edgar Hoover"). You called for a crackdown on "smut salesmen."

You warned the nation's shopkeepers, as you do every year, to beware of shoplifters. You proposed a new name for juvenile delinquents ("teenage brigands"). You deplored violence on television.

The number of arrests made by the FBI, in light of its \$127,216,000 budget and in light of its own massive crime figures, are rather modest.

Only 10,000 last year. How many shots of organized crime has the FBI arrested in the last five or ten years? Are they looking for any?

Has the FBI any program for trapping any of those well-organized and enormously rich racketeers Mr. Kennedy talks about?

Twenty-Seven Years Ago

Visitors to FBI headquarters are shown how the FBI tracked down and slaughtered John Dillinger. A great crime epic all right, Mr. H., but it took place 27 years ago.

The FBI leaps into action with great speed at kidnappings. And, of course, it keeps the Communists in check. Or says it does.

But, Mr. Hoover, you ask me to expect and demand efficient law enforcement. Of whom? If you're afraid to tackle the crime syndicate, do you think my local police officer, supported by me, the citizen, can do it?

Nowhere in the world is crime more profitable, better organized or less bothered by law enforcement than in the United States and you have been the top cop in this country for 36 years. Crime has flourished under you as it has never before flourished in the history of the world.

How ~~do you~~ explain that?

Red Spy Methods Bared by Ex-NATO Security Officer

Herald Staff Writer

Soviet bloc intelligence agents are engaged in a "massive" espionage offensive in West Germany as part of their round-the-clock effort to infiltrate and break the Western World's NATO alliance.

This was the report Saturday of a former top official in the North Atlantic Treaty Organization who is the new director of operations for The Wackenhut

Corp., a national security and investigative organization in Coral Gables.

Victor P. Keay, a former FBI agent assigned for the past five years to NATO in Paris as deputy head of security, said in an interview that classified, top secret, information prohibits him from telling much of what is known about Russian spy tactics.

But he could, and did, make these disclosures and observations:

NATO has successfully blocked Soviet-Communist penetrations in Western Europe — they have not gained an inch of territory since NATO came into being."

MISSIONS of Soviet bloc agents follow a classic pattern — to learn the strength, organization, location, weapons and state of training of Western armed forces in Europe; planning for mobilization, and technical data of air installations and anti-aircraft defense.

PRIME TARGETS are details on missiles and new NATO weapons.

One point of particular interest to the enemy now is the progress and site locations for the production of the new NATO coordinated weapons program, Keay said.

Victor P. Keay
... he's been there

The ex-FBI man, who helped break the notorious Cash kidnaping case here a quarter century ago, said the NATO allies, after long and frequently cumbersome planning efforts, have come up with a working program for composite building of missiles and the F104 Star Fighter plane.

Component parts for these weapons are being produced separately in some eight of the 15 NATO nations. They are assembled in established centers, one of which is located in Germany.

Keay said that counter intelligence has established conclusively that the Soviet bloc espionage missions are directed at almost every phase of national life, not just military.

They are told to seek persons with weaknesses, such as

excessive drinking and homosexual tendencies, persons who espouse the Communist doctrine or those who have a need or love for money.

In his new position here, Keay will supervise the investigative and security operating activities of the Wackenhut Corp., the fourth largest organization of its kind in this country. Its operations extend nationwide and into Puerto Rico.

Dear Mr. Hoover:

On March 15, I was present when Dick Baker, the Assistant Special Agent in Charge of the Bureau's Miami office, addressed the local chapter of the American Society for Industrial Security, of which I am a member. Needless to say, I was greatly interested in hearing about the Bureau's activities since I had been absent from the country for five years and had not heard any Bureau speaker during that time.

I wanted to write and tell you what an excellent job Dick Baker did in connection with this speech. He had his material well in hand, made an excellent selection of interesting cases and gave the appearance of great sincerity. I heard a number of persons comment concerning his speech, and all of them were much impressed.

Sincerely yours,

For the completion of the Bureau's records, the following general data are submitted on the above-captioned corporation. The FBI has not conducted an investigation of it; as such, but the following information has come to the attention of this office and may be of interest to the Bureau.

Former FBI Agent GEORGE R. WACKENHUT is President of this corporation and alleges he was an FBI Agent from 1951 to 1954. In 1955, he was in charge of the Miami office of "FIDELIFAX, INC." which was made up of a group of former Agents. He subsequently became affiliated with a group of former Agents in Miami operating under the name "SPECIAL AGENT INVESTIGATORS." He reportedly had a fist fight with his associates and at least to a degree physically took over that organization. Information of a general nature has also been received to the effect that he resorts to fisticuffs quite easily.

Subsequently, WACKENHUT formed the above-captioned corporation and has alleged that he has on the payroll over 25 former Bureau Agents. In addition, they reportedly also have former Bureau clerks and stenographers employed by them.

Information was received on February 15, 1962, from an informant of this office, to the effect that THE WACKENHUT CORPORATION [REDACTED]

Among the employees reportedly presently employed by THE WACKENHUT CORPORATION are the following:

JOHN S. AMMARELL, Bureau Agent from 1942 to 1954; is listed as Executive Vice President.

VICTOR P. KEAY, FBI employee from 1934 to 1956 when he retired and subsequently went with NATO, commenced work with this corporation within the past few weeks.

SAMUEL K. MCKEE, formerly with the Bureau from 1930 to 1953, now retired, possesses the title of Director of Investigations. He went with THE WACKENHUT CORPORATION in the Fall of 1960. He is frequently contacting this office and on every occasion to date has wanted something to which he is not entitled. He apparently holds himself out to WACKENHUT as the "go-between" with the FBI through his alleged numerous FBI contacts. Among other things, he has requested the following:

On July 29, 1961, he telephoned this office, spoke to the SAC, and requested to be advised how the FBI identified [REDACTED]

He stated his client was a law firm which represented an insurance firm and that he also needed to know how we knew that [REDACTED]

[REDACTED] He was not furnished the information he requested.

He also requested that the SAC, Miami, use his official position to refer any prospective clients coming to his attention to McKee and THE WACKENHUT CORPORATION. He was given no encouragement.

He has also requested the SAC, Miami, to furnish him the names of two or more young clerical employees whom he, McKEE, could hire away from the FBI for THE WACKENHUT CORPORATION. This request was not complied with.

He has made numerous requests for the SAC to proceed to THE WACKENHUT CORPORATION offices in Coral Gables and pay a "courtesy call" upon its president, GEORGE R. WACKENHUT. This apparently is for the purpose of further entrenching himself with WACKENHUT by being able to show that he obviously has the SAC at his command. On each occasion he has been advised there was a conflict because of prior commitments. It was suggested that as an alternative, Mr. WACKENHUT or any other citizen should feel free to stop by the FBI Office at their convenience.

He has extended numerous requests, subsequent to the inspection of the Miami office in August, 1961, for the SAC to join him and other officials of the corporation for lunch. He was advised on each invitation that such could not be accepted because of prior commitments.

MM 66-2466

He has requested this office to furnish him with a current directory of the National Academy graduates. He was advised there were no extra copies for dissemination.

He requested this office to furnish him the addresses to which he could write for subscriptions to various pro-Communist publications. He was advised that such was not available.

He requested the Miami FBI Office hire [redacted]

He was advised there were no openings at that time for which his daughter-in-law appeared to be qualified. This would have made a good "source" for McKEE and THE WACKENHUT CORPORATION in the FBI.

He requested this office index the name of [redacted] as a subscriber to Communist publications on behalf of THE WACKENHUT CORPORATION. He pointed out [redacted] maiden name was used to secure the publications which are used as the source of a "security review" dealing with the Communist menace, which was for THE WACKENHUT CORPORATION employees only. In this connection, he also mentioned that this publication was so "excellently" done that he had distributed it to the Dade County Bar Association at their request. Upon inquiry, he could not explain how the Dade County Bar Association was aware of such publication if it were only for THE WACKENHUT CORPORATION employees. He also stated that Mr. WACKENHUT was in communication with the Director of the FBI concerning such publication. The daughter-in-law's name has been appropriately indexed.

*Have we had
any such correspondence?*

Chief of Police Walter Healey, Miami, on 11/29/61 mentioned to the SAC that SAM McKEE, former Bureau employee, had requested that he, HEADLEY, have his men from Miami go to Fort Lauderdale, Florida, and conduct investigation concerning the honesty, veracity and what type of business partner a particular resident of Fort Lauderdale would be for a prospective client. Headley laughed in repeating the request and described it as "ludicrous" in view of the fact that the Miami Police Department, of course, would have no jurisdiction in Fort Lauderdale.

On October 25, 1961, an ex-Agent employed by THE WACKENHUT CORPORATION repeated in confidence that McKEE had made a disparaging remark concerning an FBI employee, involving an investigation of alleged impersonation by a WACKENHUT employee. McKEE was contacted by an Agent of this office, and according to the ex-Agent, McKEE had told others in the WACKENHUT CORPORATION, after the interview, that he had said to the FBI Agent: "Son, you don't have enough facts for a 47-0 reference." It is alleged he then told the Agent of his, McKEE's, background in the FBI. McKEE passed it off as a great joke and inferred his great superiority over the Agent. The Agent who conducted the interview states positively that no such reference was ever made to him as quoted above and attributed to McKEE. This appears to be another instance of McKEE falsifying the facts for his own personal glory.

On January 31, 1962, McKEE called and asked that the SAC proceed to THE WACKENHUT CORPORATION offices to join him and Mr. WACKENHUT for lunch, stating WACKENHUT had some very valuable information concerning subversion. He was advised that because of prior commitments, the SAC could not accept, but an experienced Agent would be sent to obtain the information in their possession. Neither he nor WACKENHUT had any information of value and this was obviously "bait"

Because of McKEE's propensities, the personnel of this office have been alerted to be most circumspect in any possible contacts with him and to keep such at a minimum. On all occasions he has been handled diplomatically. At all times he has spoken in a friendly, ingratiating manner with the SAC, and there is no outward friction between the two. There is a constant effort on his part to get information and preferential treatment to which he is not entitled, and it is not the intention of the SAC that he be afforded any information or treatment other than that to which any other citizen is entitled, UACB. *Unless Advised To Contrary By Bureau*

The "Washington Post and Times Herald" issue of April 11, 1962, contained an article called "Capital Commerce," in which it mentioned that four Washingtonians had been elected to the Board of Directors of the Wackenhut Corporation, organized eight years ago by former FBI Agents as a security and investigative organization. It named the new Directors to be Major General Joseph V. Dillon (USAF - retired), Attorney, Major General Kenneth P. McNaughton (USAF - retired), Vice-President Fairchild Camera and Instrument Corporation; Stanley J. Tracy, Attorney; and Robert L. Weadock, Washington Manager of Beloit Iron Works. The article stated that the Wackenhut Corporation, headquartered in Coral Gables, Florida, now has more than 2,000 employees from coast to coast. Mr. Tolson requested that a detailed memorandum be prepared on the Wackenhut Corporation.

ORGANIZATION

Bureau files contain considerable information concerning the Wackenhut Corporation, individuals who are officials and employees of the Corporation, and its general operation. In substance, it appears that George R. Wackenhut (Special Agent in Bureau from 2-12-51 through 5-21-54), subsequent to his resignation, became associated with and manager of the Miami, Florida, office of Fidelifax, Inc., an organization which has agents doing private investigative work throughout the United States. At some unstated date following his resignation Wackenhut and three other former Agents (names not indicated in Bureau files) formed a company known as "Special Agent Investigators," which apparently was the organization which was the predecessor of the Wackenhut Corporation. Bureau files do not state specifically when

Re: The Wackenhut Corporation

BUREAU RELATIONS AND MISCELLANEOUS INFORMATION

Shortly after Wackenhut resigned from the Bureau he and three other former Agents from the FBI formed the company known as "Special Agent Investigators." The Bureau was alerted at that time because of the strong possibility which existed that clients of this company might be led to believe that these men still had some affiliation with the FBI. Subsequently, by letter dated 1-18-57, the Miami Office was instructed to avoid contact with the company because of misleading advertisements it had used in newspapers and the telephone directory. *Prepare SAC letter re Wackenhut Corp. 4-13*

As mentioned previously, Wackenhut was the Miami representative of Fidelifax, Inc. In 1956 an SAC letter instructed all offices in the Bureau to be circumspect in their dealing with Fidelifax because of its tendencies to capitalize on the former affiliation of many of its employees with the Bureau.

In March, 1960, the SAC in Miami advised that he had received information from [redacted]

[redacted] that approximately a year previous thereto he had been offered employment by the Wackenhut group during a luncheon attended by Wackenhut, [redacted] Wackenhut told [redacted] that he could use a man with his experience and background and [redacted] Wackenhut indicated that he could start earning the money while still employed by [redacted] [redacted] indicated that obviously Wackenhut was interested in operating the 350-man security police force at Cape Canaveral, currently (1960) manned by Pan-American employees. Wackenhut inferred to [redacted] that he could begin by attempting to convince his superiors that such a change would be to the best interests of the company. [redacted] informed Wackenhut that he was not interested, invited him, Wackenhut, to leave, and has had no further contact with him.

Considerable correspondence has been received from various officials of the Wackenhut Corporation, beginning with a letter on 10-2-61 from George R. Wackenhut, in which he set

Memorandum to Mr. Rosen
Re: The Wackenhut Corporation

forth the setup of the organization and furnished the names and background of various officials. Other individuals connected with the organization have written to the Bureau, setting forth that the organization was doing everything in its power to help combat communism, and that the corporation was printing a review which was published monthly and distributed to clients, friends, and 2,000 Wackenhut employees throughout the United States and Puerto Rico. Requests were made to receive all types of literature possible concerning the Director's addresses regarding communism and other bulletins and pamphlets issued by the Bureau along that line. This request was specifically made, a Wackenhut official indicated, as they wished to build up a library for their employees. The letters received from these officials of Wackenhut were answered by Miss Gandy in absence of the Director. No material has been furnished Wackenhut and as of March 14, 1962, the names of five former SA's of the FBI, who have been on the Bureau mailing list were removed therefrom.

In a memorandum from Mr. Malone to Mr. Mohr, dated 8-4-61, information was set forth that on 7-29-61 Sam McKee, [redacted] former SAC in the Bureau, b7D advised Assistant Director Malone that in his opinion SAC Grapp was "suffering from an overdose of public relationism." In explaining what he had in mind, McKee commented that when SAC Grapp meets anyone he so obviously turns on the charm that he gives the impression of insincerity. In addition, McKee commented that during the week ending 7-29-61 he had occasion to call SAC Grapp on another matter and during the conversation the inspection, which had just been completed, was discussed. McKee indicated that he could not recall who brought up the subject, that he had heard possibly from an ex-Agent in Miami that the inspectors were in town. He stated that while in conversation with SAC Grapp, Grapp made the comment "they must be really out to get me when they send down the chief head shrinker." McKee commented that this statement on the part of Grapp left him "cold," and in his opinion was completely uncalled for.

Memorandum to Mr. Rosen
Re: The Wackenhut Corporation

Assistant Director Malone requested a memorandum from SAC Grapp and in a conversation with him Grapp admitted having a conversation with McKee, but denied making any comment such as stated above. In Assistant Director's initial conversation with Grapp, Grapp admitted that he may have used the term "head shrinker," but on further reflection felt certain that he did not. Grapp stated that McKee had called him seeking information regarding the highjacked Eastern Airline plane which had been flown to Havana. Grapp advised that he did not give McKee any information and obviously was using the means of retaliation by making the statements that he had to Assistant Director Malone. Grapp's memorandum of explanation stated that he had never told anyone inside or outside the Bureau that the Inspector was "out to get him." Grapp's explanation continued by summing up his numerous contacts with McKee, since McKee became associated with the Wackenhut Corporation. In substance, Grapp stated that McKee had made every effort to cultivate him, apparently in order to secure information from the Bureau to which he was not entitled. Grapp mentioned that McKee had mentioned that he had enticed a former Bureau employee with twenty-five years service to come to work at the Wackenhut firm. McKee requested the names of former Bureau clerical employees and SA employees so that he might hire them for the Wackenhut Corporation. Grapp described a luncheon engagement with McKee and [redacted] (previously mentioned) as a bragging contest between [redacted] and McKee as to which of the two was the greatest and involved a recitation of their many accomplishments. At this same luncheon McKee mentioned that he thought that [redacted] "Restaurant" was a dirty place and highly overrated, and had done good business only because of the free publicity the owner had received by the visits of former Vice-President Nixon, former Attorney General Rogers, and the Director. Grapp also commented that McKee discoursed at length in a long belittling harangue about the promiscuous sex life of President Kennedy and his alleged detailed knowledge of it.

b6
b7c

Grapp continued by stating that, subsequent to the luncheon engagement on 7-28-61 or 7-29-61, McKee called him at the office and stated he "understood there were visitors in town" and wanted to know why the office was under inspection

because he knew that the Miami Office had been under inspection three months previous thereto. Grapp advised McKee that the inspection, so far as he was concerned, was a routine matter. Grapp again reiterated that he had not stated to McKee that the inspection staff was here "to get him." Grapp said that either McKee was a liar or confused.

Grapp summed up his memorandum by stating that McKee was "piqued" because Grapp did not agree with everything McKee said; that Grapp was not personally overawed by McKee's self-claimed importance; that Grapp has not used his official position to refer prospective clients to McKee (as requested by McKee); and Grapp will not permit McKee or anyone else to purloin personnel or information from the FBI.

SAC Grapp in a letter to the Bureau in February, 1962, sets forth additional information concerning McKee. At that time he stated that while George Wackenhut was associated with a group known as "Special Agent Investigators" in the mid 1950's, he reportedly had a fist fight with his associates and, to at least a degree, physically took over that organization. Grapp said that general information received indicates that Wackenhut resorts to "fisticuffs" quite easily.

b6
b7c

In this same mentioned communication from SAC Grapp, Grapp stated that he had received numerous requests from McKee to come to the Wackenhut Corporation offices to pay "a courtesy call." Grapp advised that he has always been busy and had prior commitments. On one occasion McKee requested that the Miami Office hire

Grapp continued in his letter, stating that in October, 1961, an ex-agent of the Wackenhut Corporation repeated in confidence that McKee had made a disparaging remark concerning an FBI employee who was involved in an investigation of an alleged impersonation by a Wackenhut employee. McKee was contacted by an Agent of the Miami Office, and according to the ex-agent, McKee had told others in the Wackenhut Corporation after the interview that he had told the FBI Agent, "Son, you don't have enough facts for a 47-0 reference." Grapp commented that this appeared to be another instance of McKee falsifying the facts for his own personal glory.

Grapp stated that he had advised all personnel in his office to be most circumspect in any contact with McKee and to keep these contacts at a minimum. The Director commented in this regard that there should be no contact with McKee.

Mr. J. Edgar Hoover
Director
Federal Bureau of Investigation
9th and Pennsylvania Avenue, N. W.
Washington, D. C.

Dear Mr. Hoover,

I wanted to write to you personally and advise you that I greatly regret
that any activities of the employees of The Wackenhut Corporation, with which
I am now connected, have in any way infringed upon any of the prerogatives
of the Bureau. I want to assure you that I personally have taken steps to remedy
any situations of this kind which have arisen and which became known to me.

I would not want to be associated in any way with The Wackenhut
Corporation if I thought that it permitted employees to intentionally engage in
unethical practices. I am certain it is the intention of the officials of the
company to prevent any such practices and that they are taking precautions
to guard against any such action on the part of employees.

I want to assure you of my loyalty to you and the Bureau and of my
desire to be of help whenever possible.

Please accept my apologies for taking your time, but I did want to
make my feelings clear in this matter.

Sincerely yours,

ST-100

saw Stan Tracy, former Assistant Director, the other day and Mr. Tracy stated that he was still on the Board of Directors of the Wackenhut Corporation. He said he was there as an observer so he could see if they did anything that would embarrass the Bureau and could put a stop to it. He said the operation of the organization has been taken over by former Inspector Victor P. Keay and that he has done a real house cleaning. For example, he went to Buffalo and after checking, fired former Agent Harry E. Manicas. It will be recalled that Manicas used the National Academy Directory of Graduates in connection with his investigations. Mr. Tracy further stated that the organization had removed all mention of the FBI in its literature and further that they are moving from the investigative field to the protection field. He said for example they recently bought a protection company in Los Angeles and furnishes guards and protective devices for the May Company.

It was a pleasure to receive your letter of November 9th, and I want to thank you for your kind remarks concerning my new book, "A Study of Communism." Your interest in the distribution of this book is indeed appreciated.

In response to your request, our supply of the brochure to which you referred has been depleted; however, you may wish to write the publisher, Holt, Rinehart and Winston, Inc., 383 Madison Avenue, New York 17, New York, for whatever assistance they may be able to furnish you.

Your comments concerning the recent attacks on this Bureau are most reassuring and my associates join me in expressing our thanks.

Dear Mr. Hoover,

Stanley Tracy gave to me one of the brochures concerning your new book, "A Study of Communism", and I thought that it was unusually well done. I should greatly appreciate it if I could get about 100 copies of this brochure so that I can give them to various friends of mine in this area, particularly to teachers and students at the University of Miami with whom I am acquainted. I am certain that if your book could be read by each student, as well as by the professors, it would go a long way towards combating the Communist campaign to subvert the thinking of students and to add members on college campuses. Needless to say, I am anxious to do everything within my power to answer the Communist lies, and I am proud to recommend your book for this purpose.

I should like to add that I greatly resent the smears now being made against you and my other former associates in the Bureau. You can be very sure that I will do all I can to counteract these Communist-inspired attacks.

Dear Mr. Chamberlain:

I was extremely pleased to read recently your column, which originally appeared on October 2, 1964, entitled "Pity the Poor FBI", and could not refrain from writing to tell you how right you are. As a practical matter, I can speak from experience and say that the Warren Commission Report was entirely off the beam when it said that the FBI takes an unduly restrictive view in its responsibilities in preventive intelligence work. Quite the contrary is true because the FBI leans over backward to supply information to other governmental agencies where it is of interest and of use to them in discharging their own responsibilities. This policy is qualified only by the need in certain instances for protecting sources and for achieving the broad need of protecting our internal security.

I certainly agree with you that in the past the FBI has been criticized by Leftists for disseminating too much information relating to potential or possible subversive individuals. I also know that these same individuals will raise a hue and cry now, based on the Warren Report and use it as a base for further attack on J. Edgar Hoover without regard to consistency. I certainly hope that the American Public is not misled and I am certain that your column will go a long way to setting the record straight.

As a retired veteran of 22 years in the FBI and of 5 years as assistant head of the Security Bureau of NATO, I want to thank you for your analysis of the situation in your column.

[redacted] This action was taken pursuant to recommendations approved in the enclosed memorandum Mr. Davidson to Mr. Callahan dated 9/8/64, and captioned as above. As stated in the enclosed memorandum, CSC is conducting a security clearance type investigation of Wackenhut and Keay for the Atomic Energy Commission (AEC) concerning access to restricted data and restricted areas. Wackenhut is President of Wackenhut Services, Inc., and Keay is an executive in the firm. In addition to the statements regarding the Bureau services of Wackenhut and Keay, which statements contained no derogatory information, [redacted] of CSC was also furnished copies of the investigative reports on Wackenhut and Keay made by the Bureau prior to their Bureau employment. These reports contain no derogatory information. [redacted] said that CSC would use the material provided to assist in the current CSC investigation and would furnish the material together with the results of the CSC investigation to AEC.

Later on 9/11/64, additional background regarding AEC's interest in Wackenhut was obtained from [redacted] of AEC's Inspection Division. [redacted] said that Wackenhut's organization was recently the low bidder for a contract to supply guards for the AEC Nevada Test Site and the AEC Nevada Operations Office. This contract amounts to about 3.5 million dollars yearly. [redacted] added that the present contractor, Federal Services, Inc., is fighting to retain the contract and has made charges that Wackenhut is unfit to have the contract for various reasons. As a result, [redacted] said, AEC has extended

The President
of the United States
The White House
Washington, D. C.

Dear Mr. President:

I could not help but go on record as hoping that you are not considering the replacement of Mr. J. Edgar Hoover as Director of the Federal Bureau of Investigation. Based on twenty-two years experience in the FBI under Mr. Hoover, I personally know that the criticism currently directed against him is at best unfounded and in large part is certainly malicious. Certainly many of the charges being made are not new and they have no more validity now than they did when they were originally made. The very nature of Mr. Hoover's position makes it vulnerable to criticism which often can not be adequately rebutted because of the necessary secrecy of operations of the FBI. I think it is a tribute to Mr. Hoover that he has been a target for criticism by both extremes on the Civil Rights issue and I think it shows that the Bureau has followed the proper course in its handling of this most delicate issue.

EXP. PROC.
45 DEC 4 1964

I feel there is at stake not the reputation and standing of Mr. Hoover, they are too well established to be in danger, but it is the welfare of our country which is in jeopardy. I hope, Mr. President, that you will wisely act as you have so many times in the past to the best interests of the United States.

Very truly yours,

Victor P. Keay

My Dear Senator Holland:

I wanted to write and advise you of my concern at the reports that Mr. J. Edgar Hoover may be replaced as the Director of the Federal Bureau of Investigation. I also wanted to express my views as to the merits of the various charges being directed against him and against the work of the Federal Bureau of Investigation.

Based on twenty-two years of experience in the FBI under Mr. Hoover, I personally know that the criticism of him and of the FBI is without merit and in large part malicious. I think in this regard that the record speaks for itself, certainly the accomplishments of the FBI have been outstanding and it has a worldwide reputation as being a law enforcement agency of the highest standing. As you know, Mr. Hoover has been a target for criticism by extremists both of the right and of the left and I think that in itself demonstrates that he has been unbiased and impartial.

I think that the welfare of our country requires that Mr. Hoover be retained in his present position as long as he can discharge the duties of that position and as long as he wishes to remain as the Director of the FBI. As a resident of Florida I want to strongly urge that you do anything in your power to see to it that Mr. Hoover continues in his most important position.

Very truly yours,

Victor P. Keay

[] has asked the company whether they would be willing to perform investigations in the United States regarding individual South Africans and particularly those who are in the United States as students. Keaytold me that his company is giving serious consideration to the request and if they decide to accept the offer will probably register with the Department of Justice as agents for a South African principal.

I made no comment concerning his information, and Keay informed me that he merely wanted the Bureau to be aware of the proposal which they had received.

Former Special Agent Victor *Keay* of the Wackenhut Corporation, Miami, Florida, has requested telephonically that he be advised telephonically of the service records of eight former Agents. Review of files shows that service of three of the eight were entirely satisfactory, in which case we would advise in addition to dates of service and grades, that services were satisfactory and that nothing was known which would reflect unfavorably on character or integrity during period of service. These three are as follows: Leo E. Kuykendall, EOD 6-24-40, Retired 12-15-60; [redacted] and Harvard E. Heystek, EOD 3-9-42, Retired 1-4-66.

The other five concerning whom information exists which would prompt us to simply give service dates and grade but omit any comment as to character and service are as follows.

[redacted]
His services were satisfactory. In December, 1951, he requested re-instatement and was favorably recommended but after submitting his application indicated he was no longer interested. In 1958 the Bureau received information raising the question as to [redacted] discretion in discussing Bureau investigative matters. In connection with a request for the service record of [redacted] from the office of Senator Carl T. Curtis (R-Nebraska) it was recommended that the Senator's office be called and advised of [redacted] period of FBI employment and salary; and if approved that his Bureau service was entirely satisfactory but that subsequently the Bureau had received information raising a question as to his discretion in discussing Bureau investigative matters and, therefore, the Bureau could not recommend him. Mr. Tolson noted he felt we should just give [redacted] service record with which the Director concurred.

Memorandum Adams to Callahan
Re: Request for Service Record Summaries on Eight
Former Agents by Wackenhut Corporation

[redacted] He
resigned because he could not accept a transfer from [redacted]
where he was Alternate Senior Resident Agent to Washington Field Office.
Accordingly, he was recommended unfavorably for reinstatement.

Charles R. Carson, EOD 10-21-40, Retired 12-30-60. Carson's services were satisfactory; however, he was removed from the Special Correspondents' List 9-14-61 after he wrote the Director suggesting that money spent on publications forwarded to retired Agents be spent on salaries or equipment instead. In addition, he complained about not being included among the Bureau's social functions since his retirement and stated he believed the Bureau's method of separation of retirees from the service was too much patterned after the action taken when an employee is discharged. The Director commented, "He retired voluntarily so I don't know what he is "beefing" about."

[redacted]
was recommended unfavorably for reinstatement inasmuch as he violated his agreement to remain in San Juan for two years.

Robert F. Ryan, EOD 11-1-38, Retired 8-25-66. While assigned to Honolulu Ryan was censured and transferred 4-21-66 to Omaha because of his very poor judgment in a number of instances when he was attempting to obtain information which was of no concern to him and because of his poor attitude on occasions when certain derelictions were called to his attention by his SAC. On 6-3-66 he was censured for poor judgment for calling an inspector away from an important assignment for no apparent reason. He was not placed on the Special Correspondents' List. In September, 1966, SAC, Honolulu, advised he had received information that Ryan, who had returned to Honolulu, was making derogatory comments about the Bureau. Honolulu letter 2-14-67 advised Ryan is Manager of Wackenhut at Honolulu and that Ryan had been making comments slandering the Director. The Director noted, "Ryan is a rat."

RECOMMENDATIONS:

1. That on the first three mentioned above whose records were satisfactory Keay be advised telephonically of their dates of service and grade and in addition that their services were satisfactory and nothing was known which would reflect unfavorably on character or integrity during period of service.

2. That on [] Carson, and [] Keay be advised of their dates of service and grade and that we have no comment as to their record with the Bureau.

ADDENDUM BY MR. TOLSON

I do not think we should give Keay any information. Ryan, at least, is already employed by the Wackenhut Corporation.

My memorandum 2-27-67 noted that former Special Agent Victor Keay of the Wackenhut Corporation, Miami, Florida, had requested telephonically that he be advised telephonically of the service records of eight former Agents. Mr. Tolson added to the memorandum he did not think we should give Keay any information noting that retired former Special Agent Robert F. The Director noted that he shared Mr. Tolson's view and otherwise Wackenhut will be claiming he clears all appointees through FBI.

REC-142

67-36317-346

By virtue of previously issued information by the Civil Service Commission it is suggested the Bureau may desire to furnish Wackenhut only basic information on former employees without any comment whatsoever on character and services. Specifically, Commission instructions of 3-17-66 held that the names, position titles, grades, salaries, and duty stations of in-service Federal employees are public information and that standard Government policy generally should be to release this information in response to requests. We determined immediately as reported separately that in the interest of national security the decision as to release of such information continued to rest with us and we, of course, do not release to the public listings of our employees. We do, of course, verify employment of current employees upon receipt of bona fide requests from such as credit companies and realtors. With respect to out-of-service employees, out-of-service personnel folders of other Government employees are forwarded to a repository in St. Louis. However, we have an exception to retain those of former FBI employees. This means we are the sole source on employment information of former FBI employees and we do verify former employment from a variety of bona fide inquiries. Under the circumstances and mindful of the Governments' general feeling on the subject, it is believed we are in a position of being obliged to confirm former employment to Keay although we need go no further.

RE: Request for Service Record Summaries on Eight
Former Agents by Wackenhut Corporation

If we simply confirm former employment of the eight to Keay without any comments as to services and character, it is believed we would still be in a position of denying that Wackenhut clears appointees through the FBI should the question ever arise.

It is also believed that as we learn through service record summary requests such as this of any degree of affiliation with Wackenhut of former Agents, they be removed from the Special Correspondents' List if they are on such list. This will include the three named by Keay whose services were satisfactory and who are at this time on the list.

RECOMMENDATIONS:

1. That we simply confirm employment to Keay of the eight former Agents named by giving dates of service and grade with no comment as to their record.

*Let him make request
on writing*

3/3 - Right.

2. That as we learn through service record inquiries and the like of affiliation by former Agents with Wackenhut, they be removed from the Special Correspondents' List if they are on such list.

Mr. Don Shoemaker
Editor
The Miami Herald
1 Herald Plaza
Miami, Florida

Dear Mr. Shoemaker:

Draw Pearson, in his column which appeared in the Herald December 15, 1966, entitled "Wiretaps Or Not, Bobby In Charge During Hoffa Case," while praising J. Edgar Hoover, through some strange reasoning draws a "moral" from what he calls "the bugging battle" between Mr. Hoover and Senator Bobby Kennedy to the effect that Mr. Hoover should be removed from office because he is beyond 70 years of age, and that the FBI Director should be rotated every five years just as the Army Chief of Staff and the Chief of Naval Operations are rotated. Mr. Pearson's second "moral" is the complete answer to his first one in which he states that the FBI "has become one of the most efficient law enforcement agencies in this or any other country and should be kept out of politics". This is precisely why Mr. Hoover should be kept in his position because we know that as long as he is the Director of the FBI the organization will be kept out of politics and will continue to be a service dedicated to protecting this country from its enemies within and without.

The suggestion that the position of Director of the FBI should be rotated every five years is ridiculous on its face. If this had been the practice in the past, there would be no FBI because Mr. Hoover would never have had the chance to build the organization and to keep it free from politics. The position would likely have become a political football under such a system. It is a false analogy to compare the FBI to the military service; they are completely different.

348

In further answer to Mr. Pearson's conclusion that no man should be considered in office beyond the retirement age of 70, it should be noted that the events from which he draws this "moral" occurred prior to the time Mr. Hoover was 70. History is replete with examples of men who have continued to render the highest type of service to their country after the age of 70. Mr. Pearson certainly has not made a case against Mr. Hoover concerning his failure to continue to perform his duties with top efficiency, integrity and honor. We are lucky as a country to have Mr. Hoover. Let's keep him where he is.

Very truly yours,

Victor P. Keay

Although I know that you will have received many letters of appreciation for your speech at the luncheon at the Convention of the Society of the Former Special Agents of the FBI, I wanted to write and tell you what a great thrill it was to hear you speak again. Your appearance had the magic effect of bringing the group attending the Convention closer together than at any other time. Sitting down in the audience you could feel the pride which the Ex-Special Agents felt in your accomplishments and their former connection with you.

May I again express my appreciation to you and wish you the best of health and continued success.

Today VICTOR P. KEAY, presently an employee of The Wackenhut Corporation and formerly an Agent of the Bureau, contacted me and advised that The Wackenhut Corporation is having difficulty getting information from local law enforcement agencies. KEAY said he is fully familiar with the Bureau's regulations but he said he does feel they are being hampered by not getting information from local law enforcement agencies.

He said they have four or five excellent cases as far as local corruption is concerned and they intend to proceed on these cases in the near future. He stated the Governor recently contacted GEORGE WACKENHUT and advised him that he wanted to proceed against the hoodlums in Florida and requested that he get full background on them. KEAY said, of course, not having any inroads into this information, it would be almost an impossible situation.

KEAY said it was a situation that has to be resolved. I pointed out to KEAY the Bureau's regulations in connection with the dissemination of information to private investigative agencies and told him we were precluded by law. He said he fully realized the Bureau's position and stated it is his understanding, and he gave me this information confidentially, that the Governor intended to contact the Attorney General in order to clarify this situation. He stated that WACKENHUT in no way wanted to run in opposition to the Bureau and merely wanted to get the thing clarified. Apparently the Wackenhut people have been turned down by all authorized law enforcement agencies.

I thought the Bureau should know that Governor KIRK might contact the Attorney General and KEAY indicated there is a possibility he might contact the Director. I emphatically pointed out to KEAY that the regulations are hard and fast and I could see no reason why Wackenhut or any one of his representatives should contact the Director.

KEAY said he would keep me informed of developments and what plan WACKENHUT and the Governor will decide to take. I will keep the Bureau advised.

Wackenhut Official Victor P. Keay

Victor P. Keay, who put his legal and investigative experience with the FBI and NATO to use as an executive of the Wackenhut Corp. of Coral Gables, died of a heart attack Monday in Doctors Hospital.

His home was at 5137 Granada Blvd., Coral Gables.

Mr. Keay, 65, was vice president and assistant secretary of Wackenhut. He came here in 1962 from Paris, where he was deputy head of the North Atlantic Treaty Organization.

Victor Keay

... dies at 65

Previously, he had been with the Federal Bureau of Investigation.

AS DIRECTOR of operations for Wackenhut, a nationwide security firm, Mr. Keay once said the cloak-and-dagger tactics of business were the same as those of government.

Industrial spies, he explained, "use every modern technique known to the professional cloak-and-dagger people."

Large corporations, he said, have complete security staffs to safeguard themselves, but "smaller firms use organizations such as ours."

Under his guidance, Wackenhut "swept" companies — seeking tiny "bugs" such as concealed transistorized radio transmitters.

SURVIVING are his wife,

Virginia; a son, Victor, an information officer in the U.S. Department of Agriculture, of Washington; five sisters, Mrs. Betty Adams, of Tampa, Mrs. Mable Polk, of Elvins, Mo., and Mrs. Glenda Brown, Mrs. Rena Gross and Mrs. Rose McKay, all of St. Louis; and five brothers, Virgil, of Bonne Terre, Mo.; Glenwood, of Hillsboro, Mo.; Ray, of Vallejo, Calif., and Melvin and Henry, of Elvins, Mo.

Services will be held at 1 p.m. today in Woodlawn Park Mausoleum Chapel.

The family has suggested that flowers be replaced with contributions to the Bush Chapter of the Women's Cancer Association of the University of Miami, 1350 W. Flagler St.
